Mayor's Report

Rich Regovich
Mayor/Safety Director

March is here and I hope this is a good sign that spring is in the air. I would like to recognize the effort of our Service Department employees for keeping our roads clear and safe throughout this winter. It has been a number of years since we had a white Christmas let alone a snow storm that dumped approximately nine inches of snow on Christmas Day and into the night in Willowick alone. Many of our employees worked throughout the day and night to keep up with the snow and ice. They all did a great job this season and remained diligent enough to keep up with filling significant pot holes between snow events to maintain a smooth ride. We are lucky to have such a well-trained crew.

We had our annual budget meeting on February 6th at City hall. The City budget was discussed with each department director and our Police and Fire Chief's. This was a public meeting of the Budget

Committee, which is chaired by Councilman Vanni. This is a great opportunity for Council to see every line item of the budget and hear from each director as to where money needs to be spent within each department. This year was very different with the COVID 19 crisis as it forced us to shut down almost all of our city programs; however CARES Act funding did help with this loss. The total City budget proposed for 2021 is approximately \$16,885,179.32 which is very similar to 2020 and 2019's budget total. Council will have three readings of the budget starting at the next meeting of Council and this has to be passed, by law, by April 1st.

Regarding the funds Willowick received from the Coronavirus Aid, Relief, and Economic Security Act (CARES) Willowick received just over 2.1 million

dollars. There were guidelines on what this money could be spent on and a short timeline to do this. Money was spent on Personal Protection Equipment (PPE), computers, and computer infrastructure, we were able to get a new ambulance, and other needed vehicles for the City. You will see many automatic doors at the City buildings and there are hands free stations to monitor body temperature as you enter them. A big part of the funds were used for Police and Fire salaries. We will continue to close any open purchase orders and prepare for a federally mandated audit that will look at each expenditure. I am proud of our Finance Department for their hard work and to Council for having several meetings to meet the extreme deadlines.

By now many of you may have seen the new construction of two retail buildings at Shoregate Town

Center. These are currently being built where the former Ground Round restaurant and Chase Bank drive through were. We have been working with Phillips Edison, the owners of Shoregate, for more than a year to have this modern retail space constructed. Each building will be 6000 sq. ft. with a drive through window on the end units. Two major retail chains, Starbucks and Chipotle, have made inquiries and have started the paperwork process with the City. Both businesses are looking to occupy the end units where the drive-through windows are. We hope to entice more businesses to locate in these new spaces and the hope is to renew interest in Shoregate as a whole. We will continue to think outside of the box and look to fill any of our open retail within the City. This has proven a difficult task this past year as many businesses are struggling.

During these winter months, sometimes the City will treat the roads with a brine solution. The brine is a pre-treatment that allows us to use less salt because it keeps the snow from sticking to the roadway. Using less salt means not as much is being washed out to the Lake through the storm drains. If you have any questions about this call the Service Department at 440-585-0963.

Laketran Offering Free Transportation to COVID-19 Vaccine Appointments

Laketran is providing free, accessible transportation to any Lake County resident in need of a ride to a COVID-19 vaccination appointment.

Lake County residents can use Laketran's local route buses or door-to-door Dial-a-Ride service.

For Laketran's door-to-door

Dial-a-Ride service, customers must schedule a reservation by calling 440-354-6100. Laketran recommends making a reservation for Dial-a-Ride as soon as you have a confirmed appointment for your COVID-19 vaccine. Reservations for Dial-a-Ride can be made a minimum of one day in

advance and up to 12 days prior to an appointment.

If a vaccination appointment is at a drive-thru site, Laketran customers will remain on the bus for the entire trip. Laketran will transport residents through the entire vaccine process and return you home safely.

Kirtland resident, Jean Harvey, received her first vaccination at the county's Coulby Park distribution site using Laketran.

"The whole process went very smoothly. My bus was on time, the line wasn't very long, and I didn't even have to get off the bus - I couldn't ask for anything better," shared Harvey. "I usually ride Laketran about twice a week. During the pandemic I have continued to ride when necessary, like doctor's appointments or shopping, and have always felt safe."

Residents who prefer to take Laketran's Local Routes 1-9 can call Laketran Customer Service

at 440-354-6100 and request four bus passes be added to their EZfare account or mailed to them.

"We are here to help in any way we can to get our community through this pandemic and move forward," said Laketran CEO Ben Capelle. "We've responded with our mobile food pantry bus and now we want to make sure every resident has the opportunity to get vaccinated."

Lake County residents who need transportation assistance to get a COVID-19 vaccine can call Laketran at 440-354-6100 to schedule a Dial-a-Ride or get route information.

Bankruptcy 101:

Bankruptcy Made Simple

The two types of bankruptcy that most people hear about are chapter 7 and chapter 13. The word chapter refers to the chapter (like in a book) in the bankruptcy code. Chapter 7 is a liquidating bankruptcy and chapter 13 is a non-liquidating bankruptcy. Liquidating means they (the government) can take your stuff. Non-liquidating means they cannot. However, there are exceptions to this. I will try to lay this out in a simple fashion:

In a chapter 7 you will be able to discharge all of your debts without paying anything back. However, if you have any equity (value) in anything (your home, your car, your bank account, your boat-anything) you must surrender it to the bankruptcy trustee (the person who looks out for the creditors) so that it can be sold (liquidated) to pay back the creditors to the largest extent possible. Equity is what determines which chapter of

bankruptcy you can file under. Fair Market Value minus Amount Owed equals Your Equity in anything.

A chapter 13 is a non-liquidating bankruptcy. This means you get to keep everything, but you have to pay back a percentage of your debt. It is also used for people who are in foreclosure or behind on their mortgage and in fear of foreclosure.

A chapter 13 requires a payback plan from between three to five years. The payment is monthly. The amount is determined, again, by the amount of non-exempt equity you have accumulated in your life. Exempt equity is equity that the law says your creditors cannot take. Non-exempt means they can take it. Your total equity is referred to as your bankruptcy estate.

Obviously, everyone wants to do a chapter 7 because it is no pay back. However, since 2005 it has become much harder to file chapter 7. In 2005, legislation was passed which tightened up the income restrictions on people with

regard to the Chapter 7 bankruptcy. The intended result was that more people must file under Chapter 13 of the Bankruptcy code and pay back, at least, what the government thinks they can afford.

It is the bankruptcy attorney's job to advise you which is the best chapter to file under. It is also the attorney's job to make sure you keep your home, your car, and everything else you have accumulated throughout your life. At Biales Delchin Law we concentrate in the area of bankruptcy. Our practice is dedicated to helping people resolve their financial problems in an honorable and dignified manner. We understand how hard it is for people to take this step. We are sensitive to the pain, despair, sense of failure and humiliation many feel for being in this situation. We are dedicated to educate our clients in a compassionate, caring and sensitive manner as to why it is an act of love to yourself and your family to file bankruptcy; that bankruptcy is a mechanism created by the United States Constitution

to help people get back on their feet and start contributing, once again, to our economy and that you are not only helping yourself and your loved ones but that you are actually helping the economy and your country by filing bankruptcy in most cases (that is why it was created by the Constitution as a power granted to Congress).

Some of the greatest and most honorable people in U.S. history have had to file bankruptcy. Abraham Lincoln filed bankruptcy; so, did Thomas Jefferson and Ulysses S. Grant. It did not affect their contributions to society or malign their names. Bankruptcy- if needed- is good. Anybody who thinks or says otherwise has never been in life and sanity threatening financial distress; they have never suffered unending merciless harassment, letters, and phone calls by bill collectors. You do not have to live that way. You can regain your peace of mind.

If you are in this situation you are not alone. We can help you get your sanity back. Please

come in for a free completely confidential consultation. You will speak with an experienced bankruptcy attorney. Your case will be analyzed and you will be given a detailed and compassionate evaluation of exactly what can be done to help you. There is absolutely no obligation or pressure to hire us. You will not be asked to give us money or sign anything and no one will ever know that you came. We are legally bound to the highest level of confidentiality in these cases.

If you decide bankruptcy is the solution for you, we will be happy to put you on an affordable payment plan. We will stop the annoying collection calls immediately. We will protect you from lawsuits, garnishments, and other collection activity. We will see to it that, if possible, you keep your car, home, and all of your other property. Bankruptcy is a wonderful legal tool that can give you peace of mind and give you a fresh start in life. I have seen it work miracles.

Will Your College Student be Home for the Summer? He or She Can Get Ahead with Classes at Lakeland

Traditionally, many students at four-year colleges and universities come home for the summer. This year, some may have never left for their campuses due to social distancing, safety concerns, fewer in-person classes and more online offerings. Your

college student may have even opted to take a semester or the year off.

For years, summer has been a time for high achieving students to get ahead. Now students also need affordable options for catching up on coursework, and

Lakeland Community College delivers.

You might ask, "why would a four-year college student take classes at the local community college?" The answer is simple, it makes good business sense. Lakeland's tuition is about one-

third the cost of four-year public universities, and the credits are accredited. This means that standards and course objectives are the same at Lakeland as other Ohio four-year colleges. And, the credits earned transfer back toward the student's bachelor's degree. Taking courses such as accounting, biology and English at Lakeland is the smart choice – students walk away with a quality education at a fraction of the cost.

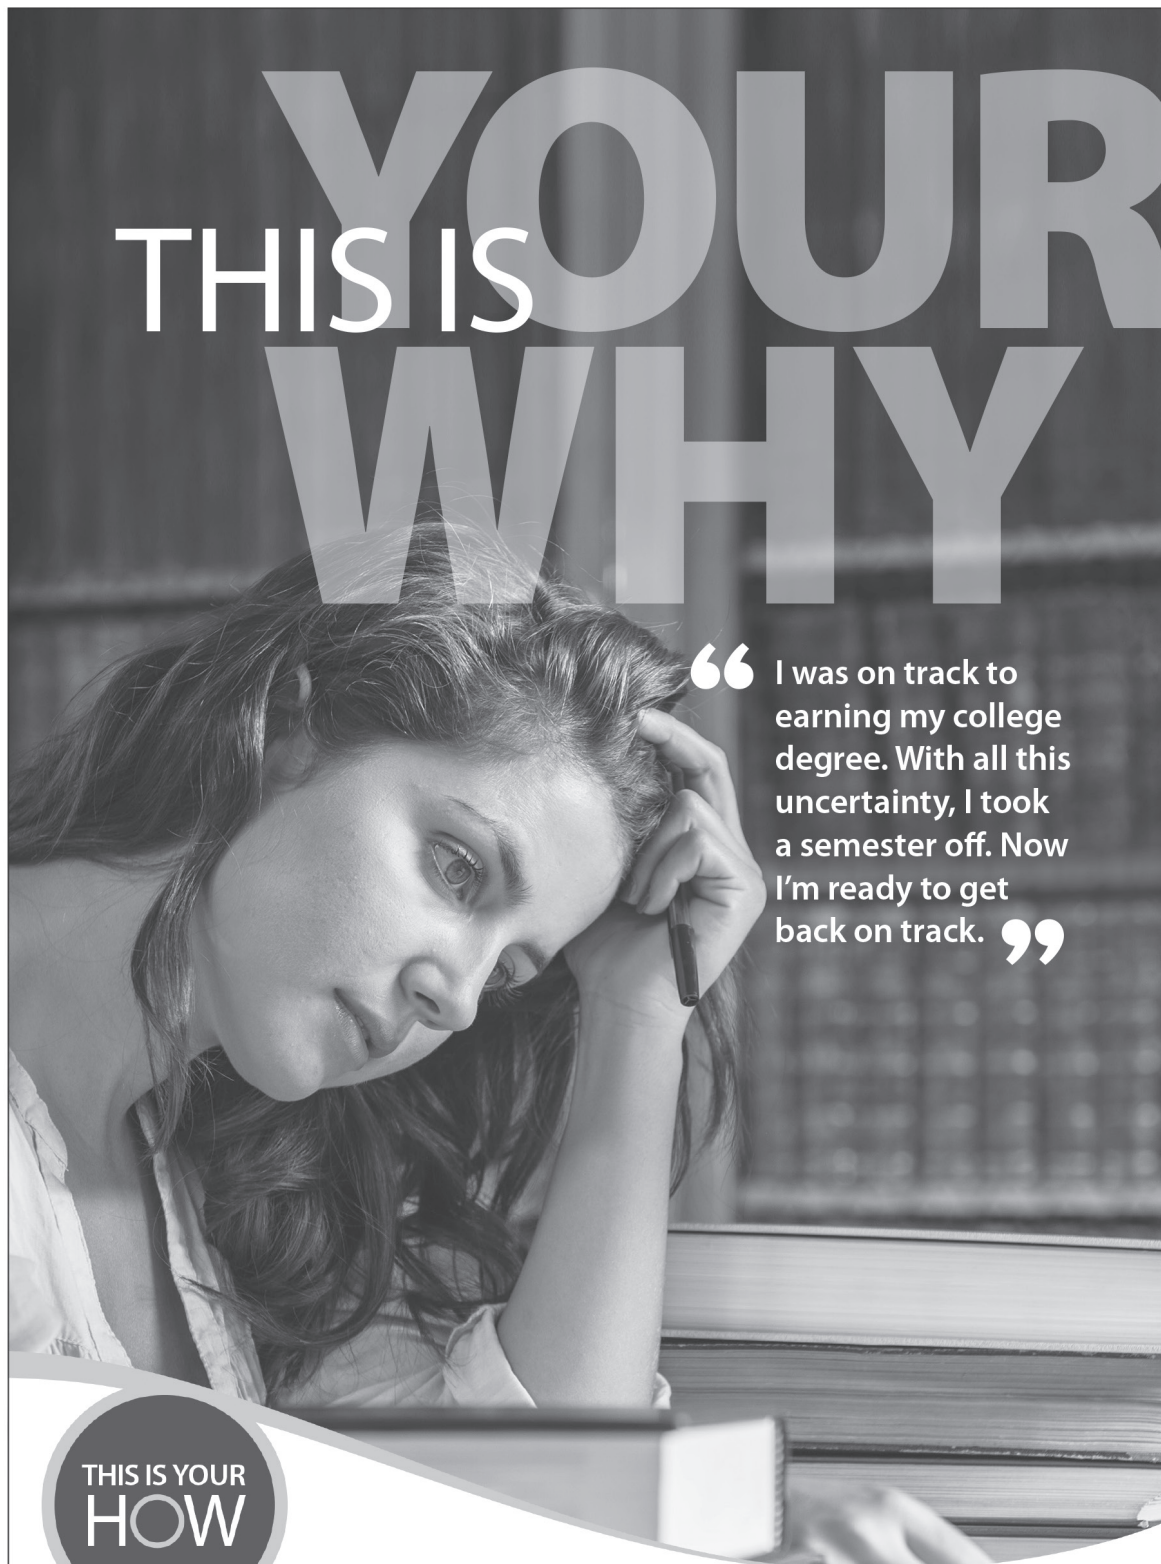

Summer registration opens

March 8. There are three start dates:

- First Summer 5-Week Session begins May 17.
- Full Summer 8-Week Session begins June 7.
- Second Summer 5-Week Session begins June 23.

Summer classes are offered in-person as well as online for those who prefer to study in the safety of their home.

Visit lakelandcc.edu/summer.

“ I was on track to earning my college degree. With all this uncertainty, I took a semester off. Now I'm ready to get back on track. ”

THIS IS YOUR HOW

With a wide range of courses, both in-person and online, Lakeland Community College offers three convenient summer sessions allowing you to catch up or get ahead. We'll help you design a summer schedule that aligns with your needs and puts you back on track to realizing your goals.

Celebrating Our Strengths

Our strength is providing a service that helps our clients and their families.

Sometimes we get so caught up in caring for others we forget ourselves. And, in doing so we forget to honor our life and our loving relationship.

What are our strengths? And, what does that mean to you?

Longevity with our caregivers means your loved one gets the best of care—they are in the hands of committed and experienced caregivers.

Mandatory special training each month means your loved one gets the most up to date care—their needs are met.

Special memory care activities means your loved one's mental capacity is extended—their quality of life continues.

Many of our caregivers have personally cared for their loved one and that means they have been there—they know and understand the challenges involved.

CPR trained and certified means you can feel confident your loved one will get the best of care if there is an emergency.

Mandatory virtual dementia

tour means our caregivers can better care for clients with dementia.

Our service not only takes care of your loved one, but also helps you. You experience a sense of comfort knowing your loved one is in good hands. This peace of mind permits you to take a real break so you can relax, recharge and refocus. And, this allows balance so you can maintain your best self and a relationship.

We don't think we can afford a break, while the truth is, if we don't take a respite it will break us.

What if you could take a break and refocus, and renew the joy

you get from caring for your loved one? It could mean listening to understand more, having more patience and stopping the internal conflicts and doubts.

It means looking into the eyes of a loved one and seeing love reflected back.

We want to value and celebrate our relationships, strive to be our

best—a family that supports one another in good times and bad times.

Audubon Offers Solutions to Single-Use Plastic

Blackbrook Audubon Society will host "The Problem with Plastic" by Jill Bartolotta in a virtual program 7:00 p.m. Tuesday, March 16.

Everyone is invited to register on the event page of Blackbrook's website at blackbrookaudubon.org. Those registering will receive a link to the program, which will give an in-depth look into our use of plastic, its effects on us and the environment, and provide simple, inexpensive steps to break free from it.

Ninety-six percent of the trash found on beach cleanups along the Great Lakes is plastic, with most being identified as single-use. Plastic is not meant to be in the natural environment and

its presence is wreaking havoc on ecosystems, the safety of our food and drinking water, and the economy.

As the Ohio Sea Grant Extension Educator for Ashtabula and Lake Counties, Jill works with municipalities, scientists and the public to collaboratively manage Lake Erie and its resources. Her research includes our reliance on single-use plastics and barriers to reusable alternatives.

Blackbrook Audubon covers Ashtabula, Geauga and Lake Counties as the local chapter of National Audubon Society. For more information, email blackbrookaud@aol.com. Follow Blackbrook Audubon Society on Facebook for updates.

Steve Douglas the owner of Mentor Window was asked about how they continue having such success in the home improvement industry. "We have crews that have been with us for decades, and we are very particular about the installers we hire. We won't just hire anyone to catch up if we are backed up a bit, quality is at the top of our list when it comes to workmanship. When it comes to pricing, we are straight forward with people, they don't want to

hear any buy 1 get 1 free nonsense. They want a fair, honest price up front without all the gimmicks you see out there in advertising. We treat each and every one of our customers like family."

"Only about 5% of the Home Improvement companies in Northeast Ohio have performed consistently well enough to earn our Super Service Award," said Angie (founder of Angie's List). "It's a really high standard."

MEDICARE SUPPORTS MENTAL HEALTH

All of us are well-aware of the impact COVID-19 has had on our lives. While the health care community continues to fight the physical effects of COVID, mental health professionals are dealing with an increasing number of people struggling with the consequences of isolation, fear, and loneliness brought about by COVID.

Medicare is a valuable resource when it comes to supporting mental health. It covers preventive screenings, psychological counseling, alcohol and drug abuse counseling, outpatient treatment programs and more. Health care through the following providers is covered:

- General practitioners

- Nurse practitioners
- Physicians' assistants
- Psychiatrists
- Clinical psychologists
- Clinical social workers
- Clinical nurse specialists

Now, during the COVID-19 pandemic, Medicare has temporarily expanded its coverage of telehealth services making it easy for Medicare beneficiaries to meet with a mental health care professional from the comfort and privacy of their home.

While many mental health services are covered by Medicare, beneficiaries are responsible for the Part B deductible and 20% of the Medicare-approved amount for visits to their doctor or other health

care provider to diagnose or treat your condition.

Medicare does not cover all types of therapy. You are not covered for marital counseling or counseling with a pastor. It is always best to check with Medicare or your Advantage plan for all eligibility requirements. In addition, ask your health care provider if they accept your Medicare insurance before you begin receiving services.

If you have Original Medicare and need help finding a participating provider, you can use Medicare's Physicians Compare tool online or call 1-800-MEDICARE. If you have a Medicare Advantage Plan, call your plan directly for a list of mental health care providers in

your plan's network.

If you or a loved one has feelings of anxiety, stress, isolation, or depression, help is available. For more information, contact Medicare at 1-800-Medicare or go to Medicare.gov and search Mental Health Care.

If you have questions on insurance including Life, Health, Medicare Advantage and Medicare Supplements, please give me a call at 440-255-5700 or email me at Lmutsko@mutskoinsurance.com. I look forward to helping you get the protection you need.

Deciding who to call to get your best deal when it's time to replace your outdated windows & doors is easier than you realize.

Start by calling Shoreline Window and Remodeling Company. A company with a professional, experienced track record dating back to 1954. That's 65 years of total customer satisfaction made possible by all our past clients who trusted in our ability to meet or exceed their expectations on receiving the "real deal" for their remodeling projects.

We start by reviewing your project and listening to your goals and concerns and we welcome any recommendations you may have. Then together we establish a budget and work to stay within that cost.

Your materials selections are hands-on, not from pictures out of brochures and once all your selections have been made, we order any products that are not in stock.

free as possible, we always keep you informed of the progress of the job.

Because Shoreline Window and Remodeling Company is a family owned business, you will always be dealing directly with the owner, no pushy salesman or inexperienced tradesmen. Our company is bonded and insured, and our workers are covered by workers compensation for your protection.

Murder and Mayhem in March: The Doctor's Double Life

The strange death of Dr. Giuseppe Romano in 1936 was Lake County's most perplexing mystery for more than 50 years. Learn the details of the brutal murder & see if you can solve the crime. Who killed the handsome doctor? A cuckolded husband? A double cross from the mob? Robbery gone wrong? Disgruntled wife? Angry girlfriend? And what about the 4 lbs. of shrimp? When the gruesome murder case of Willoughby's Dr. Giuseppe Romano went cold in 1936, there was little hope that it would ever be solved. Cleveland had its hands full with a bloody decade of violent crime; but with the Mafia code of silence, secrets were kept - until an unexpected figure would betray the omerta fifty years later.

A husband in his scoutmaster's uniform shot through his kitchen window in 1959. Two killers tried in the Lake County Courthouse. One sent to spend life in the penitentiary and the other found not guilty.
