

I believe that all children are naturally musical and have the potential to sing in tune, move rhythmically and appreciate the beauty of music.

My goals for CHILDREN are:

- to experience music making modeled by those he or she loves most.
- to grow in the music skills of singing, moving, listening, playing and creating.
- to be exposed to fundamental music concepts such as pitch, rhythm, timbre, expression and form.
- to arouse natural musical curiosity so that music becomes a continuing and significant part of his or her life.

My goals for CAREGIVERS are:

- to increase ideas for ways to spend quality time with your child
- to acquire a repertoire of songs, dances, fingerplays, books and listening ideas
- to gain confidence in simple music making skills
