

SMART JUICE

100% Organic Fresh Squeezed Juice

ABOUT US

Our organic SMART JUICE begins on USDA NOP certified pesticide-free farms. We select only the premium sun-ripened fruit, chock-full of antioxidants and vitamins. Our handpicked fruit is prepared to maximize all the goodness from the fruit including its delicious handcrafted taste.

SMART JUICE is 100% juice. We never, ever add any additives, preservatives or artificial anything – ever!

The only sugar in our juice is the natural occurring sweetness from the fruit itself and we never add any filler juices to lower the quality of our SMART JUICE.

Our quality assurance program ensures that our juice is carefully controlled from the tree to the bottle and all of our products are certified kosher (except for products with grape).
