

Video Production Methods Video Project

We will be learning the basics of Video Production by creating a short video that demonstrates each of the steps that are listed on this presentation.

You can do this assignment individually, or in a group. No more than 3 in a group.

1. Pre-Production
2. Storyboard (see video below also) (Links to an external site.)
Links to an external site.
3. Production
4. Post-Production
5. Optimize and Export Video

We will use the following video to learn some basic composition techniques. You will recognize a lot of the techniques from photography last semester.

Your job is to create a video that will demonstrate the Video Production Methods. You can film yourself, other students or use copyright-free images and videos from pexels.com.

Video Production Methods Video Project

When completed, upload your video here as a large file size. There is no time limit for the video, but it needs to demonstrate each of the steps of video production. Make sure you reference the rubric below to see all of the requirements.

Video Production Project   		
You've already rated students with this rubric. Any major changes could affect their assessment results.		
Criteria	Ratings	Pts
All Video Production Steps are Included in Video	This area will be used by the assessor to leave comments related to this criterion.	50.0 pts
Video demonstrates each step of the video production process satisfactorily.	This area will be used by the assessor to leave comments related to this criterion.	25.0 pts
Video utilizes composition basics that were learned in this lesson.	This area will be used by the assessor to leave comments related to this criterion.	25.0 pts
Total Points: 100.0
