

# Relocation Services

A relocating home buyer typically must contend with a narrow window of time and a host of overwhelming details, adding to the pressure of a job change and move.

Our relocation services are truly concierge-level: we take the time to assess the needs of transferees and personally guide them throughout the relocation process. We take away the stress by showing them only those homes that are perfect for their lifestyles. So you as a seller will see truly qualified buyers who are receptive to your unique home.

We are a member of Cartus, the nation's leading real estate referral network. Through Cartus and our collective relocation efforts, we bring thousands of potential buyers to our listings.

# Corporate Clients

Here are just some of the corporate clients, relocation companies and affinity partners from which CBWM Relocation generates home buyers.
