

Dog Socialization & Transportation

My business tries to remain flexible to meet the specific pet needs of our individual clients. We understand that what works for one client, might not work for another and our whole objective is to provide you with peace of mind during the time you are not with your pets.

Therefore, we have developed several different options for pet owners to consider for their pets. For instance, during ongoing service to folks who work long hours and want their pets to have a visit during the work day, we can stop by your home and walk or exercise your pets there. Or we can take your dog to one of our socialization tours, which is like a mobile dog park. We have several clients who encourage us to bring new dogs to their homes to play, exercise and socialize!

For folks out of town, we can visit your home up to 4 times a day to care for your pets, or provide overnight sitting, or even a live-in sitter, which is done by my co-worker and he moves in during your absence.

Vacation, overnight & live-in sitting require advance booking!!!!

Tell me what you need & we'll negotiate!

- HP can keep your key or door code and be on call for pet services or home-related services.

While HP is in your home to perform pet or people duties, there are additional services provided, if requested, at little or no extra charge. These services might include:

- Bringing in any deliveries left outside
- Turning on or off lights if requested
- Cleaning up any pet messes found
- Making observations about odd cars or events occurring in your neighborhood
- Always leaving a detailed note on each visit describing pet's behavior, odd occurrences, etc...

Pet services are accepted within the Golden, Arvada, Lakewood, Morrison & Littleton areas.

Advance notice of services needed, and early cancellation or change is requested, due to my operation & scheduling needs.

HPP Background Info

My name is Patti Ibbotson. I've always had pets in my life, and was involved in establishing a Lab Rescue here in Denver where I volunteered for 10 years. My interest in this business began when I needed a qualified, trustworthy person to take care of my own dogs when my family took a trip. I've never felt comfortable with kenneling my pets, or even a daycare situation. I'd rather have my pets taken care of on their own turf. My career as a professional pet-sitter began in November, 2004. I worked for another pet-sitting company for 2 1/2 years before deciding to start my own business, and add the people-assistance portion. This is a very personal service, whenever a person is allowed into a home to care for a pet or help with projects, it is a matter of trust. It is always my policy to leave a home in the same shape, or better, than when I entered it. I always leave a note describing my visit, any observations made, or funny stories to be told. Another policy I have is to treat others the way I'd want to be treated myself, and to treat their pets like I'd treat my own. Thank you for your interest in Happy Pets LLC!

NOTE: 2018 will bring very exciting changes to my business!! I work with another sitter who owned his own business for over 20 years! We work together so your pets have 2 reliable pet-sitters in one business.

Pet Services

Pet services depend on the pet & people involved. The first step is to set up an initial, complimentary visit to get acquainted, you with me and me with your pets. We'll spend time reviewing their habits and routines and decide how HP can fit into your life and provide you with the service you need.

HP provides pet-sitting services for clients who are going out of town. This can include 1 - 4 stops per day at close to your preferred times, or an overnight stay if you prefer. The daily stops while you are away can include a walk or exercise and play at home, your choice. The overnights begin about 8pm through the next morning at 8am. Extra walks can be negotiated. Your pets will be fed as close to their regular meal times as possible. If you desire, stool pickup or litter box clean up is provided.

Other pet services might be for people who have full time jobs, and perhaps crate-trained pets who need to be let out or walked daily or on a regular basis.

Dog Walks & Exercise

Finding it hard to get that dog walk in with your busy work schedule? HPP can provide daily walks, can be on call, and can be flexible in days and times. Plus, I come to your home and walk your dog(s) in the area they are accustomed to walking in.

I'll use your leash & NEVER remove it during a walk. I normally provide a treat or two on walks, and promote good behavior, but I'm not a trainer. It is my job to keep your pet safe and return them home according to your instructions.

Cats In Particular

Cats are an entirely different issue altogether! Some of them are very friendly, and others are aloof, still others need to be found under the bed every visit. I try to respect each feline and determine what will make them feel most comfortable in your absence. I will track them down and make sure they are doing okay & give them loads of attention if they'll let me. There is nothing like a happy cat!!
