INSTRUCTIONS

Applicant/Grantee: Request completion of this form by Product Manufacturer, Supplier/Vendor, or Contractor. Once the form is completed and signed by the Product Provider (see below for definition), upload this form along with the supporting documentation, as described in the front page, to the application module (for Applicant) or the grant management module (for Grantee) of GMS.

Applicant/Grantee to provide:

Applicant/Grantee Name: Enter the legal name as it appears on the Application in GMS.

Grant Number: Leave blank for Applicant; For Grantee, enter grant number as shown on the Grant Agreement Cover Sheet.

Price Quote, Modification Request, or Payment Request: Check the box marked "Price Quote" (for Applicant) or either "Modification Request" or "Payment Request" (for Grantee).

Product Manufacturer, Supplier/Vendor, or Contractor (also referred to in this document as "Product Provider"): Provide the information requested. This form must be signed by a representative of your company who is authorized to contractually bind your company and certify to the truth of the information provided. Complete and submit form back to Applicant/Grantee.

Product Provider to provide:

Product Provider Type: Check the box whether you are a Product Manufacturer, Supplier/Vendor, or Contractor, who is completing the form.

Contact Information: Provide your business contact information in this section.

Complete the Table: See the example on the first row.

- 1. Enter Product Description, Material Type, and site name in the first column.
- 2. Enter the product weight in the second column.
- 3. Calculate the number of PTEs by dividing the weight by **12** pounds per PTE. Enter this number in the sixth column.
- 4. Enter the Product Provider's cost per tire in the eighth column. CalRecycle will reimburse Grantee up to a cap of \$5 per tire diverted. The total cost should include shipping and tax not to exceed the \$5 cap.
- 5. To calculate the material cost, multiply the number of PTEs diverted by the cost per tire. Enter this number in the last column.

Signature of Product Provider: This form must be signed by an authorized signer from the Product Provider. Enter name of signer, his/her title, and the date the form was signed.

PLEASE NOTE

Final Report Supporting Documentation: The Product Manufacturer, Supplier/Vendor, or Contractor (Product Supplier) must attach documentation that verifies that the tire material in the Product(s) described above and sold to the Grantee is from only California-generated waste tires and that the waste tires were processed and manufactured into a final product in California. Documentation must verify the flow of the California-generated waste tire material from the California processor to the final product manufacturer (if different) to the Supplier/Vendor or Contractor (if different) to the Grantee and include: 1) a Certificate of Origin (completed by the Processor) or Bill of Lading(s) and 2) invoices, as applicable.

Material Cost: Use the formula to calculate the product material cost eligible for grant funding. Material cost includes tax and shipping. Truck tire buffings may be used in the product/project but the cost associated with the buffings will not be reimbursed.
