

Event Catering Operation

DSM Events LLC maintains its own food and beverage catering operation. When we operate it as an event “restaurant” we use the name “2J’s Event Catering”. Housed in a easily mobile enclosed trailer for transportation it is typically set up under a 20 ft x 20 ft canopy and has string lighting to illuminate for night sales. Menus readily adjusted - Mexican, Burgers & Hot Dogs, breakfasts and more.

Usually this is set up together with beer and cocktail sales for which an approved charitable organization is licensed. DSM Events maintains an Arizona Liquor Department event contract liquor license to facilitate such operations.

Any and all of the equipment, cocktail bars (two attractive diamond plate units on large casters), propane grille and griddle, chafing dishes, tables and chairs, food warmers, linens, coffee service, pizza rack, hot dog machine and more can be rented for your event.
