Hammer Stahl is a premier brand of New Era, Inc., one of the oldest cookware manufacturers in North America. New Era's legacy began as the direct-to-consumer division of the Vollrath Company in 1874. In 1982, Donald Henn purchased the consumer division of Vollrath and established the New Era Cookware Company, which has a long history of innovation in the kitchenware industry. New Era introduced the first 7-ply, multi-clad, surgical stainless-steel cookware to the marketplace as well as one of the first induction ready products. The company's primary focus over the last 35 years has been on manufacturing private label and OEM lines for companies throughout the United States and abroad. Today, New Era is proud to bring a line of top quality kitchen products that will showcase exceptional performance, value and quality to the retail marketplace.

The Hammer Stahl Kitchen series includes American-crafted, 7-ply, surgical stainless-steel cookware, German steel cutlery and a full assortment of stainless-steel bakeware and accessories. As a family owned business, New Era's goal is to provide customers with exceptional quality at a fantastic value and to provide retail partners a program that makes them competitive and profitable in the marketplace. New Era's success is a direct reflection of forming partnerships with retailers as well as creating and continuing a high level of trust with the customer.

Cutlery Sets

Made in the tradition of the great German knife makers, our patented new designs are professional quality at competitive prices.

21 PC CLASSIC COLLECTION

Tackle any stainless steel cleaning job with this amazing stainless steel cleanser.
ES-SSPCLEAN

Hammer Stahl Customer Warranty

Hammer Stahl Cutlery Care and Warranty

Proper Care

Please keep in mind some basic tips when using your Hammer Stahl knives:

- Always use caution when handling a sharp object.
- Avoid cutting on hard surfaces such as metal, granite, marble and glass. We recommend bamboo, hardwood or NSF-certified polymer cutting surfaces.
- Do not use any knife to cut through bones; use the meat cleaver only when separating joints and small, soft, cooked bones.
- Hand wash with warm water and a mild detergent. Rinse and dry immediately. Do not put in the dishwasher.
- Avoid cleansers with bleach or citrus extracts.
- Do not soak knives in water.
- Sharpen as needed. To maintain sharpness, we recommend using a ceramic honing wheel (Handheld Sharpener) or honing steel as needed.
- Sharpen knives at home using a whetstone or knife sharpener, or have them sharpened by a professional.
- Store knives in a safe place to protect edges and prevent injury. Use either the gift box, blade guard or sheath when stored in an open drawer.

Warranty

Hammer Stahl warranties your cutlery to be free from defects in material and workmanship. Any piece or component found defective will be repaired or replaced free of charge. This warranty applies to the original purchaser. Warranty registration required.

If destroyed by fire, flood, storm, earthquake, misuse, commercial application, neglect, accident, or altered in any such way that its performance is affected, it will be replaced for half the current retail purchase price plus shipping and handling.* Hammer Stahl cutlery will remain sharp for many years if cared for properly. After extended use, you may want your knives to be factory sharpened. This service is free of charge, however there will be a nominal shipping and handling fee.*

For one to three knives: \$6. For four or more knives: \$10 (10 knives maximum).

International shipments may incur additional shipping charges. All funds are in US currency. Note: Please allow three to four weeks for the servicing and return of your cutlery. Be sure to pack your cutlery safely for shipping and ship prepaid.

*All prices are subject to change. A Return Authorization Number (RA#) is required in the unlikely event a return is necessary. Please return in a box with proper packing material and the RA# on the outside of the box, prepaid. Contact Hammer Stahl Customer Service to obtain an RA#. Hammer Stahl cannot be liable for merchandise damaged in transit caused by improper packaging.

Hammer Stahl Cookware and Bakeware Care and Warranty

Proper Care

- Before first use, wash thoroughly in hot soapy water and 2 cups of distilled vinegar to remove any manufacturing oils from pan.
- We recommend allowing bakeware to cool prior to washing, otherwise warping may occur.
- Hammer Stahl cookware and bakeware is dishwasher safe.
- To remove food residue and stains, use a nylon scrubbing pad and a fine-powdered cleanser, such as Essentials Stainless Steel cleanser. Steel wool, scouring pads and bleach-based cleaners are not recommended.
- Aerosol non-stick sprays are not recommended because they can cause a sticky film build-up and can affect the performance of your cookware and bakeware.
- As with all cookie sheets, slight warping may occur when baking with higher heat. Hammer Stahl cookie sheets will retain their shape once cooled, and will perform flawlessly.
- Cutting in the pan is not recommended because it may cause surface marks.
- With normal use and proper care, your bakeware is covered by the Hammer Stahl lifetime warranty.

Warranty

Hammer Stahl cookware and bakeware have been manufactured to the highest standards. Each stainless steel part is unconditionally warranted against defect in material and workmanship for the purchaser's lifetime. If a stainless steel part rusts, warps, chips, cracks, bends, melts or breaks, this is considered defective. Simply contact customer service to obtain a Return Authorization # (RA#) and we will repair or replace the item with an equivalent item.

If any piece of cookware or bakeware is destroyed by fire, flood, storm, earthquake, other acts of God, misuse, commercial application, neglect, accident, or altered in any such way that its performance is affected, it will be replaced for half of the current retail purchase price plus shipping and handling. This warranty gives you specific rights. You may also have other rights which may vary from state to state.

If service becomes necessary, contact Customer Service to receive an RA# and ship the product along with a description of the service requested to:
