David Daleiden: History of Undercover Journalist's Legal Battles after Exposing Abortion Industries Fetal Organ Harvesting Secrets

DEFENDING DAVID DALEIDEN

David's heroic actions resulted in the Trump Administration defunding Planned Parenthood of $60 million dollars.

Kamala Harris and Planned Parenthood have been trying to destroy David Daleiden with a series of lawsuits for years.

David Daleiden is one of the most skilled and successful investigative journalists in America. He founded his Center for Medical Progress in 2013 to go undercover inside the highest echelons of the abortion and fetal tissue industries.

After 30 months undercover, David publicly unveiled gruesome results of his investigation: evidence of infants born ALIVE AND VIVISECTED FOR THEIR ORGANS, illegal partial birth abortions and a host of financial and ethical violations related to ILLEGAL TRAFFICKING OF ABORTED BABY BODY PARTS.

David's work uncovered the lie to the abortion industry's claim that it protects the health and welfare of women. Its objective is PROFIT in a MULTI-BILLION DOLLAR trafficking industry. Abortionists altered abortion procedures to deliver fully "intact" fetuses. Covert videos he presented to Congress showed organ harvesting while hearts were still beating. Late term abortion is undeniably murder.

Kamala Harris, then Attorney General of CA and now Vice Presidential candidate for Joe Biden, **issued gag orders and seized more evidence of the organ harvesting to hide the clinics' illegal and inhumane activities.**

The People of the State of California v David Daleiden, Sandra Merritt: On April 6, 2016, California law enforcement raided the Orange County home of investigative journalist David Daleiden. **Officers seized computers, hard drives, cellphones, and other personal property under the orders of California Attorney General, Kamala Harris.** David was subsequently charged with 15 felony counts in the San Francisco Superior Court.
