Client: 500 Davis Center (*Evanston, IL*)

Project Manager: Jim Gill

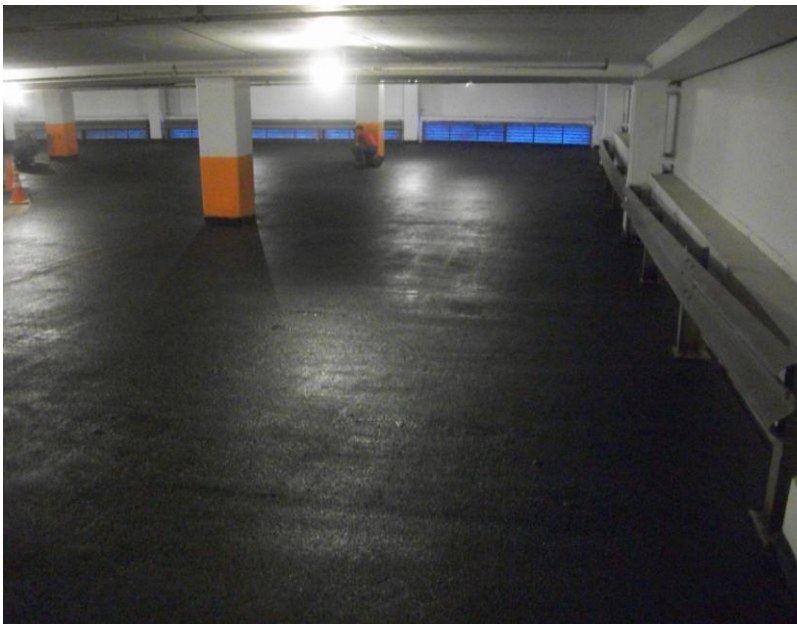

Project Superintendent: Michael Higgason

Project Description:

In April of 2012, J.Gill and Company was hired to restore the 5-story parking garage located in the 500 Davis Center. The parking levels were located underneath the residential living spaces, and over the occupied commercial space below. Special working hours and weekend hours were needed to accommodate for the noise created during the demolition process. The garage also required to maintain traffic flow during the restoration of each level. Plastic sheeting and barricades were used to contain the work areas. This \$1.2 million dollar project was completed in July of 2012

Repair Details:

- 9,200 SF Partial Depth Concrete Repair
- 5,400 SF Partial Depth Concrete Repair (Over Occupied Space)
- 280 SF Concrete Ceiling Repair
- 18,400 SF Traffic Coating Repair
- 60,400 SF New Traffic Coating (Black)
