MOBILE RACKING SYSTEMS

COMPACT SERIES

REV. 01

ALISMAIL PROVIDE SOLUTIONS FOR YOUR WORK SPACES

COMPACT SERIES

Mobile Racking Storage Systems are extremely compact and 100% accessible. They are similar to Selective Racking systems only the racking is on wheels that move along floor rails. Each racking shelf remains compacted until they are required to be accessed. With a press of a button, which can be remotely controlled, electric motors move the Mobile Racking as needed to creating an aisle space in between two racking blocks so that access to pallets can be obtained.

STORAGE
SYSTEMS IN
MOBILE UNITS,
MECHANICAL OR
ELECTRICAL
HANDLING FOR
HIGH DENSITY
STORAGE.

**MOBILE RACKING
IS A SPACE SAVING
AND COST
EFFECTIVE BY
ELIMINATING
EMPTY SPACE IN
YOUR AREA**

COMPACT SERIES

The compact mobile unit system offers the ideal solution to the problem of space in the archives of banks, government agencies, companies filing for others, small offices and in any other situation of shortage of space for storage, shops, tool ...

ADVANTAGES:

- 80-120% of the space savings
- Creation of customized systems
- Shorter research and management
- Ease of use
- Top quality materials and attention to detail make our products unique in the market

Height	Surface occupied Sq m	Running meters of shelves		N° Pieces		Gain
		Traditional	Compact	Traditional	Compact	
mm. 2500	5,2	48	96	14.112	28.224	100%
mm. 3000	5,2	64	120	18.816	35.280	88%
