

**OREGON GUN MAKERS FAIR**  
**April 30 and May 1, 2022**  
**835 CATTLE DRIVE**  
**CORVALLIS, OREGON 97333**

The Oregon Gun Makers Fair is a unique educational service for those interested in the art and construction of flintlock firearms. In this relaxed and friendly atmosphere, we get together to study and practice of craft of the flintlock. Warren Adair's workshop setting provides the opportunity to demonstrate many aspects of flintlock construction and embellishment that is not achievable in a seminar format.

- « « Plan to arrive at 8:00 a.m. Saturday morning; muffins/pastries and coffee will be available. » »
- « « Saturday lunch and evening BBQ are also included; BBQ is served before the evening **RAFFLE**. » »

We will focus much of this year's work on the process of completing the Schuler Smooth Rifle project that we have been working on for some time. Processes planned to be demonstrated are inletting ramrod pipes, side plate, and trigger guard.

Topics will include making v springs, lock tuning, sand casting brass, ramrod pipe fabrication, updates on investment mold making, engraving (recutting cast mounts), design and transfer techniques, materials, and tools.

**DISPLAY SPACE** is available for displays of original arms, contemporary arms, accoutrements, and work under construction. You are encouraged to bring any items that you would like to display.

Please feel free to bring surplus **materials that you would like to sell**;  
 other participants are often interested in purchasing these items.
