Maintenance & Replacement

Save time and labor cost with **The Dunbarton Group's** all new **Redi-Fit™**, a Pre-Hung Door System combining the durability of a commercial door with the flexibility of an adjustable steel door frame.

- The strong-as-the-wall design gives building owners the security of a 20 or 90 minute fire rating with the beauty they demand.
- Redi-Fit™ engineered door frame features precise corners and a unique preview slot for easy wood casing alignment. Steel and aluminum casing also available.
- Kerf frame with factory installed weather-stripping available as well as non-kerf (standard) frames.
- Door and Frame available with a factory prefinish in any color to save time, labor and money.
- Installation is as easy as tilt, fasten and trim.
- Fits walls from 4" to 10-1/2" thick
- Redi-Fit™ meets the Wind Bourne Debris Region standard set by the Florida Building Code. Check with factory on availability.
- Frame, threshold and door in one easy to install package.
- Wide selection of commercial door options.
- Factory Installed glass available in a variety of styles and options

Standard Color Selections

Dunbarton Prefinished Steel Doors and Frames are available in eight standard colors. "Custom color" selections can be matched to ensure the finished product will meet specifications. Dunbarton Steel Doors and Frames are finished in a state-of-the-art paint assembly line with electrostatically-applied, baked-on enamel. Paint finish meets or exceeds 240 hour salt spray test per ASTM-B117-97. Painted finishes also finished 700 hour humidity test per ASTM-D1735-87. Dunbarton Steel Doors & Frames are manufactured with high quality galvanneal zinc coating (A40).

Custom Colors
