CLUB POLICY FOR TEAM FORMATION

TRAVEL TEAMS

New travel teams will be formed from the In-House program and other available players via an evaluation process as follows:

- a) only teams playing in the 8-year-old and older age groups will be formed;
- b) teams will only be formed if the players can be competitive in an available travel division;
- c) no more than two (2) travel teams per division.

If there are two or more travel teams in a single age group, the players will be placed on each team based on their ability.

THERE IS NO GUARANTEE THAT ANY PLAYER WILL STAY ON THE SAME TEAM

All players will be placed on teams corresponding to the age and gender of the player with the following exceptions:

- a) where the club needs players to fill a team and cannot offer the player a position on a team of his or his or her age group.
- b) a player does not get the proper competition on his or her current team. There is either too much or insufficient competition.
- c) age groups are combined to create more teams to reduce the number of players on each team and create more playing time for each player.

Consideration must be given to the development of the player, the team which will lose the player and the team to which will gain the player.

Team formation and the placement of players on these teams will be the responsibility of the Board of Directors.

Within the club policy of team formation, coaches are encouraged to recommend new players, recommend placement of players based on their ability and recommend the re-organization of teams.

It is in violation of the League regulations for coaches to entice players to their team from other clubs within the League. Within our club, coaches shall not encourage players to transfer from team to team without approval of the Board of Directors.
