

for your brows only

To achieve the perfect brow, we must work with your natural face shape.

First, I determine the proper brow arch and design according to the natural contours and proportions of your facial features. Then I recommend a couple of stencils to choose from, and with the right color eyebrow powder, I enhance your most flattering brow shape. The brows are then waxed and coiffed to perfection.

Maria Hoermann, owner of le'Brow Lounge, is a brow expert. She is passionate about designing and shaping perfect eyebrows that will enhance your beauty and create the perfect face for you.
