

# Malaria Free World proudly presents

Malaria Free World is introducing the **Malaria Masters** program to assist in the global malaria eradication efforts to rid the world of the malaria epidemic. We welcome supporters of all ages to sign up to become a Malaria Master.

As a Malaria Master, you will be certified as an advocate for malaria eradication efforts, and will be responsible for:

- ✦ Organizing at least **one awareness event** every year in your community (e.g., school or workplace). Malaria Free World will provide you the basic material, and also speak at the event about malaria eradication.
- ✦ Raise at least **\$250 in donations** every year. The funds will go towards educational events and ultimately towards high-end malaria research.
- ✦ Malaria Free World will provide at least one large malaria-related poster as a **thank you gift** to the place where the event is organized. It will also offer prizes for top attendees for answering awareness-related questions.
- ✦ You will **attend annual events** hosted by Malaria Free World, and learn more about developments across the various global health initiatives.
- ✦ As part of your free registration to this program, you can make an optional donation to receive a **welcome kit** containing a T-Shirt and a backpack.
