

TILE INFO

STANDARD TILE

Standard 6 x 6-inch pool tile is standard. Glass tiles and special tile will be added as an upgrade. The cost will depend upon the item. Some specialty tiles will require additional labor, and additional trips by tile crew.

STEP DECORATIVE TILE

Tile along the pool step edges will require a second trip to install at a later date before plaster or pebble

WHAT TILE IS INCLUDED IN THE BUILD BUDGET:

Standard 6 x 6-inch waterline tile. Tile is needed on all pools. Pool interiors are not intended to be exposed to the sun. (two examples)

THREE LOCATIONS TO SELECT

Stingray Custom Pools LLC orders tiles from three showrooms. You simply select a standard 6 x 6-inch standard pool tile. Take a picture and write the name of the tile down for records. Text the selection and tile number so Stingray Custom Pools has a visual record. Stingray Custom Pools will order and schedule the installation.

UPGRADES:

Step decorative glass tiles
Diamond cut tiles for steps
Tiles smaller than 6 x 6 inches
Special order tiles
Decorative glass tiles
6 x 6 tiles that have engraved patterns or designs

INSTALLATION

Installation will depend upon the tile, upgraded tiles, shipping, and the install crews schedule

REAL STONE

We always suggest real stone panels. They are durable, solid and repel water the best.

MANMADE STONE

Manmade stone is not recommended near water. It will need to be sealed to repel water and to avoid calcium deposits that turn white.

Stone Panels

STONE INFO

WHAT STONE IS INCLUDED IN THE BUILD BUDGET:

Standard real stone panels located at Clovis Stone. The panels are located by the front entrance and inside the showroom as well.

CLOVIS STONE IS OUR MAIN SUPPLIER

Stingray Custom Pools LLC orders stone from Clovis Stone. If a different stone or location is used, we can order and accommodate the stone selected.

UPGRADES:

Special order panels, specialty stones not in stock, special stone panels that are not in the same price category.

INSTALLATION

Installation will depend upon the stone, inventory, shipping, and availability. The stone crew will schedule and install as scheduling allows.

BROOM FINISH \$

GREY STAMPED \$\$

COLOR BROOM \$\$

COLOR STAMP \$\$\$

SPECIALTY EDGES \$\$\$\$

CONCRETE

CONCRETE HAS MANY DIFFERENT FINISHES:

Concrete has many different finishes. The following finishes are the most common are broom and stamped.

CONCRETE PRICE

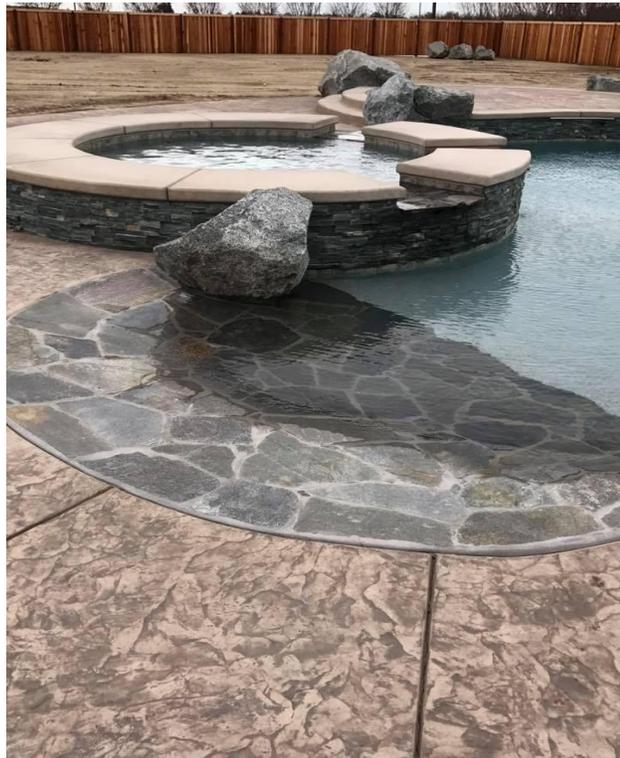

Cantilever forms, grading, dirt hauling, compacting, concrete pump, forming raised walls and the concrete finish effect price. The price depends on many variables and square footage.

UPGRADES:

Special stamp patterns, pool edges, sealing, dark colors, and fire-pits are common upgrades.

INSTALLATION

Installation will depend upon the weather and availability of the delivery and installation crew. Stingray Custom Pools and the concrete crew will select the best day possible to install. Delivery of concrete and the installation crew have schedules that can change and delay.

INTERIOR OF POOL

WHITE PLASTER \$

PEBBLE LEVEL 1 \$\$

PEBBLE LEVEL 2-3 \$\$\$

PRISM PEBBLE \$\$\$\$

POOL INTERIORS HAVE MANY SELECTIONS:

On average Pebble is about \$3500 more than plaster. As a builder it is worth the upgrade to make the interior permanent. Plaster will need to be re-done in 15-20 years and end up costing more than pebble. Pebble is the best permanent option; but it has a higher upfront cost.

PRICE RANGES AND ESTIMATES

Plaster is the most popular and economical (\$1,900 - \$2500)
Pebble level 1: \$4,900 - \$6400
Pebble level 2-3: \$6,500 - \$7800
Prism: \$7,800 - \$8,900

UPGRADES: PRICE DEPENDS UPON SIZE, SPA, SELECTION

Stingray Custom Pools only charges the customer what the installation cost is. The installation cost depends upon the material. Our distributors set the price on the selected interior materials and invoice Stingray Custom Pools based upon the option selected by the customer.

INSTALLATION: PLASTER 1 DAY INSTALL PEBBLE 2 DAY INSTALL

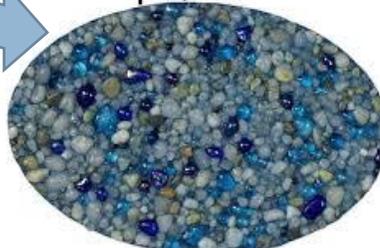

Installation will depend upon the weather, color of pebble and availability of installation crew.

\$4,900

water color or pretty pebbles?

\$8,900

WATER COLOR VS. PEBBLE COLOR

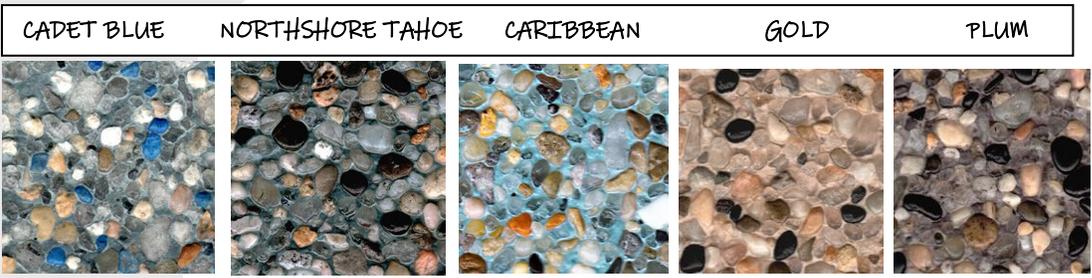

Level one pebble is the most economical selection and looks amazing when installed.

Pretty rock colors added to the mix increase the cost at different levels and are very pretty when held up close to look at. When installed you and your guests will NOT be able to see the added colored rocks added.

For example: Cadet Blue LEVEL 1 has a similar color of interior as compared to Indigo Blue LEVEL 4 with polished glass at a savings of up to \$4,000
