FLORIDA UTILITIES COORDINATING COMMITTEE

Coordination Through Cooperation

AUGUST 1988
ST. AUSUSTINE, FLORIDA

The summer meeting of the Florida Utilities Coordinating Committee was called to order at 8:42 a.m. by Chairman Roswell P. Sherling.

Chairman Sherling led the group in the "Pledge of Allegiance to the Flag", and then Mr. Bill Garrett offered the Invocation.

Self introduction followed. There were 74 members and guests in attendance.

The minutes of the previous meeting were read by Rick Nowling and approved with 2 corrections - Ken Brown was appointed Chairman of the "Nominating Committee" not "Awards Committee" and the FDOT address book is 80% compiled not 80% completed, as were reported.

Mr. Dick Rice of Tampa Reprographics was introduced by Rick Nowling as the first guest speaker. Mr. Rice spoke on digital scanning as it is now being used and ways it could be applied in the future. Data transmission by computers using a CAD system environment interfacing with project drawings which can be layered to show much information was also discussed.

Chairman Sherling then introduced Mr. Paul Kaczorowski, P.E. FDOT, State Utility Engineer. Paul covered 2 items of interest, the first being a reorganization of his department. The Director of Construction became the State Construction Engineer, a title change and the utility staff are all budgeted under this office.

The other item was that on July 8, 1988 the utility accommodation guide was assigned to Paul's office. His staff had added a few items such as the recently approved clear zone policy and revised the permit form to try to eliminate no cost agreements. Also, Rule #1465 was added to require notice for temporary land closure and also require detectability of non-metallic underground utilities.

Several copies were passed out and Paul asked for FUCC response before October 5, 1988, when he plans to go to the Executive Committee. The new guide could become law (Rule #1446) as early as December 9, 1988. Delays could extend the time to March 9, 1989.
