

Human Resource Consulting

About Us

Facio provides an effective solution to assist you in managing your people, processes, practices and issues. We are geared to help small-to-medium size companies manage their end-to-end human resource needs - to let you focus on your business. From human capital strategy to human resource administration, we are here for you.

We are experienced in various industries, public, private and non-profit entities, any size or structure, to fulfill your on-call, interim or long-term needs; our service is flexible to meet your needs.

Why partner with Facio?

It's often lonely at the top, leaving business owners and executives at a loss when dealing with the "people" aspects of their business. We understand. Employees help drive your success, are the face of your company and own the knowledge of your operation. Yet, they may often leave you sleepless at night, apprehensive of what may surface. A harassment claim, wrongful termination, a subordinate or problematic employee issue, discrimination; just a few arduous matters that you may be faced with.

It's not all bad, employees can also be your competitive advantage and the link that brings your customers back. Let us help to maximize their time and help them focus on what matters most to your business. We are here to understand, assess and streamline your processes, establish a best-practice human resource structure, right-size your team, and help your business and your employees grow.

Facio provides certified HR professionals that will partner with you to manage even the most complex, or confidential, HR matters. We provide critical support and management solutions for all your human resource opportunities and challenges.

Our business is your business, let us help. To get started, give us a call at (323) 84-GET HR.
