2 Rooms**

Welcome

Welcome to the Toddler room! We are here to provide your two year old with a safe, “home like” environment where he/she can explore, create, play, and learn. We will do whatever we can to help your child feel loved and secure.

Lots of hands-on learning activities that promote physical, social, emotional, spiritual, and cognitive development are provided daily.

Toddlers utilize both the *Creative Curriculum* and the *Gospel Light Baby Beginnings* curriculum in our weekly plans and themes.

RCELC supplies your child with a snack each day.

**This class is for children 24 to 36 months of age. Once children are potty trained, and meet the age requirement they will move to the Preschool Class.*

Toddlers: 24 - 36 Months

Cognitive Development

Children this age continue to learn through play. Play begins to be more symbolic of real life. Time and numbers are still abstract for this age.

Social Development

Children begin to initiate play with each other and will play in small groups of 2 to 3 children. They also begin to imitate what they see.

Emotional Development

Children display feelings of anger, enjoyment, fear, and affection. They exhibit a strong desire for independence. Children begin to show empathy.

Fine Motor Development

During this year, the use of the hand, fingers, and thumb are refined. Precise fine motor skills are still hard to manage.

Gross Motor Development

Toddlers tend to walk with a wide stance. They can climb, push, pull, and hang with both hands. Children will use both arms and legs when only one is needed.
