

We Are All Kentucky

Elizabeth Hernandez

My name is Elizabeth Hernandez. I am a **Mother** of a beautiful daughter and a proud "**Yaya**", that's what my 2 grand-daughters call me. I was diagnosed at the age of 17 with a syndrome called "**Guillian Barre**". Guillain-Barré syndrome (GBS) is a disorder in which the body's immune system attacks part of the peripheral nervous system. **My world as I knew it changed but the desires to live have not.**

The challenges I encounter daily make me want to do more and in my world I might **look disabled** but if you take another look **I'm "able"**. I choose to "**live**" and in this "**life**", I choose to make a **difference** and defend those who don't have a voice. I am an **Advocate!**

"DISABLED, but ABLE."
