Who is BAAHA?

The Bay Area Affordable Homeownership Alliance, or BAAHA, is a 501(c)(3) non-profit successor organization. The primary objective of BAAHA is to expand homeownership opportunities in the San Francisco Bay Area region.

BAAHA achieves our objectives by coordinating, combining, and delivering resources and services to homebuyers. Services and resources include and are not limited to:

- Homebuyer education and counseling
- Affordable home inventory – below market rate homes (BMRs)
- Homebuyer assistance programs
- Service and resource providers, including:
 - Lenders
 - Real estate professionals

BAAHA maintains program administrative contracts with cities throughout the Bay Area, such as Antioch. These contracts provide BAAHA the ability to help design, deliver, and administer affordable homeownership programs. BAAHA is continuously expanding resources to assist homebuyers through every aspect of the purchase process, including a strong emphasis in supporting and promoting financial literacy for homebuyers.
