FOR
Success**

Every teacher understands the need for rules and discipline policies. What most teachers do not know is WHAT should be considered, what should be included and how to make a classroom flow. This segment is often held in coordination with creating a classroom ENVIRONMENT; not just the rules.

Topics to be discussed:

- How can you ensure that everyone in your classroom is treated equally, fairly and with respect?
- How to modify behaviors of students who will not “behave”?
- How to enlist support while working with challenging students?
- How to create a discipline plan for every aspect of your classroom.
- What does it look like to have effective discipline in your classroom?
- How to build effective discipline that include all stakeholders.
- How to collaborate toward effective discipline.
- How to replace labeling a child to labeling the discipline.

Key Take a ways:

- How to communicate effective discipline with all stakeholders.
- Where and how to get support in regards to discipline.

We customize our packages for each individual school district based upon their needs, their wants and their challenges.
