

7. All My Relations

Susan studied Native American traditions and teachings with Dhyani Ywahoo of the Cherokee, and later with Lakota elder Victoria Chipps, who she helped write a book with called, Pray from the Heart. All My Relations is her song based on these teachings, acknowledging our profound connection to the natural world which Susan loved so dearly.

The Eagle flies in from the east, silently it comes to me
Come fly with me, together we will see everything with clarity
The Grizzly Bear walks in from the west, sees in everything
only the best
Come walk with me, together we will see the beauty of your soul
All of my relations I sing this song for you
All of my relations I pray every day with thanks for you
Mitakuye Oyasin, All of my relations (repeats 2x)
Coyote calls me from the south, rainbow songs of love flow
from its mouth
Come sing with me, together we will see as everything turns
to gold
Buffalo runs in from the north, everything in life must run
its course
Come run with me, together we will see that we are on the
beauty road
All of my relations I sing this song for you
All of my relations I pray every day with thanks for you
Mitakuye Oyasin, All of my relations (repeats 2x)
I pray every day with thanks for you
Mitakuye Oyasin, All of my relations
All of my relations I pray every day with love for you
