

## Josh's Sno Cone Shack!

Jaidyn and Gracie went to visit Josh's Sno Cone Shack.

There were 10 yummy snow cones at Josh's.

Roll the dice to find out how many snow cones they put in their box.

- Record what happens:  $10 - 4$  makes 6 cones left at Josh's Sno Cone Shack
- Prove it!  $10 - 4 = 6$  because  $6 + 4 = 10$
