

FALL 2017

September was a highlight for us. We helped host “Missions Week”. Our theme was “Serve the City” and the congregation was encouraged to be part of one or more ministry sites where they had opportunity to give in some way to the community.

Those ministry sites included orphanages, nursing homes, schools, and an outreach to a community that lives in and makes their living in the dump. In some of the sites, we had the opportunity to openly pray and minister to the people. Other places where we cannot openly share we offered them something they needed such as English courses, activities with the kids and of course treats were always a big part of the day.

We feel very privileged to live and minister here in Indonesia and we couldn't do that without your investment through prayer and finances. Will you continue to pray for the beautiful people here in Indonesia? Pray for opportunities to invest in their lives and demonstrate God's love to them. Thank you again....
