| Pelvic Region? | <input type="radio"/> | <input type="radio"/> | Lower Back? | <input type="radio"/> | <input type="radio"/> |
| | | | Pelvic Region? | <input type="radio"/> | <input type="radio"/> |

Have you consumed alcohol in the past 24 hours?

Do you have any special concerns or are there any details related to the information above?

Procedure: You will be imaged with a state of the art infrared imaging camera in comfortable and controlled surroundings. Your thermal imaging baseline reports will provide information about current and future conditions only and does not diagnose breast disease. Thermal imaging should be correlated with other medical investigative methods to better direct definitive testing for diagnosis and treatment. It does not replace any other breast examination.

Patient Disclosure: I understand that the report generated from my images is intended for use by a trained health care provider to assist in evaluation and treatment. I further understand that the report is not intended to be used by myself for self-evaluation or self-diagnosis. I understand that the report will not tell me whether, I have any illness, diseases, or other conditions, but will be an analysis of the images with respect only to the thermographic findings discussed in the report.

By signing below, I certify that I have read and understand the statement above and consent to the examination.

Patient Pre-Scan Instructions:

To achieve an accurate evaluation, you should avoid conditions that would cause artificial influences. Please fill out your patient history forms prior to your appointment and contact our office with any questions you might have that are not covered here.

-
1. Unless specifically instructed by your physician, you should wait at least three (3) months after any form of breast surgery (including biopsy), the completion of chemotherapy or radiation before your study.
 2. You should avoid any natural or artificial tanning of your chest for three (3) days prior to your study.
 3. You must avoid any vigorous physical stimulation, examination or compression of the breasts (self or clinical examination, ultrasound or mammogram) for at least three (3) days prior to your study.
 4. You must not have had significant fevers (102 or more) within thirty-six (36) hours of your study or have any level of fever on the day of your study.
 5. You should refrain from a sauna, steam-room or hot/cold packs in contact with your breasts for at least twenty-four (24) hours prior to your study.
 6. There should be no new bruising, rashes or skin irritation on your breasts or underarms on the day of your study.
 7. You should not use any skin creams, lotions, deodorants or powders that may cause inflammation on your breasts or underarms on the day of your study.
 8. With your physician's permission, please do not use the following medications for twelve (12) hours prior to your study: niacin or niacin patch (500 milligrams or more), nitroglycerin or any migraine medication.
 9. You should avoid any tobacco use or caffeinated coffee or tea consumption for two (2) hours prior to your study.
 10. You should avoid vigorous exercise, bathing or showering for one (1) hour prior to your study.
 11. If you are breast-feeding, please empty your breasts 30-60 minutes prior to your study.
 12. Please remove all jewelry.
 13. Long hair should be worn up or pulled back off your shoulders prior to being scanned.
 14. For your comfort, we recommend you wear a blouse and pants or skirt to your study.
 15. For a breast scan, please do not wear a bra to exam but you can bring one for after the exam.
