MIRROR CANYON

A SPACE WEATHER ODYSSEY

SYNOPSIS

Reluctant to go camping with his older brother, Sean sets up rules under which he agrees to travel with Adam. But the rules of engagement are quickly thrown out the window when they get caught in an electromagnetic storm that forces a shift in the local time-space. Trapped in a loop of trails that seem to point to an ancient myth inscribed in the canyon, Sean must convince Adam that the space weather anomaly might actually be telling them a story -- one where only a single brother can survive.

Sean and Adam track helioseismic turbulence on the car radio.

LOGLINE
 Sean and Adam get caught in a zero-sum game after discovering an "abandoned park" might actually be a tribal ruin that can only be seen during solar maximum, an extreme weather event with interference phenomena.

Mirror Canyon introduces characters from Stomach Movie: two brothers who don't always see eye to eye face-off during solar maximum.
