XSCORPION

The Inside Story

The entire line of Xscorpion car audio components is vigilantly designed and manufactured for flawless, immaculate performance. Every fuse and cable and enclosure is entwined with meticulous passion and innovative technology. Undeniably a fierce leader in revolutionizing the enclosure industry more than a decade ago, Xscorpion continues to remain faithful to its legacy.

Xscorpion '07 is proud to present its newest line of car audio components and enclosures. We are quite confident that the customer will find the entire collection to be an attractive package of design, quality and value.

Our deepest gratitude and appreciation goes out to all our valued customers. Thank you for your support throughout the years.

MINI ANL IN - LINE FUSE HOLDER

EXPERT LINK ®

INTRODUCING THE SAFEST & SMALLEST ULTRA HIGH POWER FUSE HOLDER AVAILABLE

No longer is there a need for large space consuming power blocks. The new mini ANL allows power transfer to equal any other block, while using half the space. From single to quad outputs.

Battery Isolater and Relay with Control Box

BI 200	200 Amp.

• Prevents loads on auxiliary battery from draining the main battery.
• Works with all alternater types.
• Reduces charging system load by not connecting auxiliary battery until primary battery is charged to 13.2V.

The Inside Story

XScorpion Enclosures are built with the Highest Quality Materials, combined with High Tech Design and Manufacturing Tools, operated by Skilled Craftsmen. All XScorpion Enclosures are built using 3 / 4 inch High Grade MDF, processed with the latest (CNC) Cutting Equipment to produce exacting box shapes that extract every possible Decibel and Hertz of performance from each vehicle. Precisely cut Dado and Rabbet joints are used throughout, along with a Special Joint Sealant to insure the solid, airtight performance demanded by serious bass enthusiasts. Latex Backed Carpet is applied to the exterior of each enclosure to assure durability while adding a professional appearance
