

3RD TEMPLE COUNTDOWN

PROPHETIC TIMELINES OF THE END

The Mathematics of Biblical Prophecy

*'Let no one deceive you in any way. For it will not be, unless the **Departure** comes first, and the man of sin is revealed, the son of destruction, who opposes and exalts himself above every so-called god or object of worship, so that he takes his seat in the Temple of God, displaying himself as being God. Do you not remember that I told you these things while I was still with you?' -2 Thessalonians 2:3-5 (Word English Bible)*

The purpose of this study is to conjecture the possible timelines of the 'event' that could lead-up to the construction of the 3rd Temple on the Temple Mount in Jerusalem, Israel. This study will argue that in relation to such an event, its prophecy is a factor of time based off or the *Golden Section*. Certain key prophetic events always occur on certain dates and are a factor of divine mathematics. The *Golden Section* or the *phi ratio* is 'the division of a line so that the whole is to the greater part as that part is to the smaller part, i.e., in a ratio of 1 to $1/2(\sqrt{5} + 1)$ '. It is a mathematical proportion that is considered to be particularly used as the 'Signature of YHVH', the Creator. It is interesting that the word signature comes from the root word to 'sign' or a marker. This mathematical phenomenon is seen as the building blocks of measurement in all things.

Pythagoras had it right when he stated that 'All is Numbers'. This study strongly suggests that even Biblical prophecy is about numbers, certain numbers and dates that can be reduced to mathematical variables even. Biblical prophecy is about numbers, specific to days in the case of the coming 3rd Temple as prophecy is about its timing. For example Jesus Christ gave the unbelieving ruling council a 'sign' they demanded of Him to 'certify' His credentials as Messiah, Jesus stated that no sign would be given to him except the 'sign' of His resurrection. Jesus specifically alluded to the 3 days Jonah was in the belly of the great fish and that how if the Temple would be destroyed, Jesus would raise it in 3 days, etc. Of course Jesus in the later inference was speaking of His body of which the Temples were proportioned after and modeled essentially.

There is also the example of how when YHVH commanded Ezekiel to lay on his sides for certain days to demonstrate the sins and judgment of both the kingdoms of Israel and Judah. Then there is the enigma of various prophecies given to Daniel pertaining to specific year counts related to the 1st visitation of the Messiah. Daniel also correctly deduced the amount of years for the captivity of Judah to be 70, etc. There is also the book of Revelation that compliments the prophecies of Daniel with the specific mathematical clocking of prophetic time, subject to periods of 1260 and 2520 day counts for example. The Jubilee pattern is another amazing sign or counting of prophetic time that YHVH has encoded in time, that of the 120 Jubilees that many have attempted to decipher, etc.

The Golden Section of Prophecy

The timelines suggested on the charts associated with this study appear to converge on the year 2018. There are 2 main times that such a marker is calculated from. There is the year, assumed to be the time Israel crossed over the River Jordan into the *Promised Land*, to be around 1413 BC. Many believe that from that point, there are 70 Jubilees that are to be counted from when the last Sabbatical Cycle or the last 7-year 'week' of Daniel is to commence and the return of the Messiah is to take place. Then there is the captivity of the northern 10 tribes by the Assyrians to be approximated to have been in 721 BC. This mathematical calculation deals with the 390 days Ezekiel was instructed to lay on his side for the Northern Kingdom of Israel that was later taken captive.

The language of Hebrew itself is a language of mathematics as each letter corresponds to a mathematical number. Thus, certain numbers or combination of numbers can be used to communicate prophecy also. This is the argument that Israel and the *Church Age*, for that matter are subject to amazing patterns of timelines and time-specific events subject to the *Golden Section* pattern or template. It was significant when Creation was initiated, what day and what day it concluded, when the first humans were created, what was the succession of the line of Adam, etc. It was also a matter of time and mathematics as to how long the enslavement of the Hebrews was to last in Egypt and when the *Exodus* was to take place. The giving of the Law and the *Moeds* were time specific and tied to numbers, how many prophets and Judges Israel had. Then there was the factor of how many Kings each kingdom had, etc.

Not only is Biblical prophecy a factor of time but events in the secular world are also often tied to certain numerical values. Moreover the Luciferians also often use the same time-tables and prophetic templates. Some have made the case that for example, the world wars are one such phenomenon that this study agrees with and is one of the series of events that is subject to the *Golden Section*. For example, if one uses the start of World War I, that of 1914 and the beginning of World War 2 that started in 1939, then the 3rd triangulation results in the year 2022. What is very peculiar, mathematically at least is that if one superimposes the *phi ratio* graphic onto the timeline from 1914 to 2022, the fulcrum spiral portion of the graphic completely matches with the duration of the 2nd World War, that from September of 1939 to September of 1945.

Thus could this mathematical projection suggest when World War III is to occur in 2022? What would this war look like and who would be involved? Given the glimpses of Biblical prophecy, many speculated that this 3rd World War will involve the nations of Israel, Russia and its Muslim neighbors. If this is to be the case, a prime candidate would be the Gog-Magog War in which the international alliance among Russia, Iran primarily and the outer-ring of Muslim nations attack Israel. If this would or could be plausible, could this suggest that sometime prior to 2022 is such a time that constitutes part of the Tribulation period? This study is assuming a literal 7-year 'week' that will constitute Daniel's last prophetic week or *Sabbatical Cycle*. This world war is not taking into account the other arguments that suggest that in order to produce such a state of geo-politics in the region where Israel no longer has 'walled cities' that the Psalm 83 War has to occur then prior to 2022.

The Mathematics of Prophecy

This study suggests that these are and perhaps will be 'events' that are allowing for the construction of the 3rd Temple in Israel. This study also suggests that these stepping-stones are a factor of mathematical subject to Biblical prophecy. This theory can be applied to the possible coming event that will lead to the building of the 3rd Temple on the *Temple Mount* in Jerusalem, Israel. Using the same template of the *phi ratio* or *Golden Section*, the prophetic pattern from the restoration of Israel in 1948 is also striking. In prior studies, the suggested timeline presented also has the 2 known geopolitical markers or 'signs' that have already occurred. Those would be the establishment of the nation of Israel 'birthed' in 1 day on May 14, 1948. The 2nd 'sign' would be the recapturing of the Old City of Jerusalem in the *6-Day War*. This allowed for the acquisition of the *Temple Mount*.

This 'event' was a stepping-stone' that had not occurred since 70 AD and coincidentally 1948 years from 70 AD will be 2018, the 70th anniversary of Israel's birth. If the *phi ratio* spiral graphic is superimposed onto the timeline since 1948, the exact fulcrum of the spiral converges on the *6-Day War* time period of 1967. If this mathematical template is extrapolated to triangulate the 3rd time on the timeline, it corresponds to approximately 2018. Thus are these Biblical prophetic 'signatures' suggesting that the 3rd Temple 'event' is to be in 2018 sometime? Of course this is at best an educated guess based on a mathematical extrapolation of time. However there are some unique mathematical variables even leading-up to 2018.

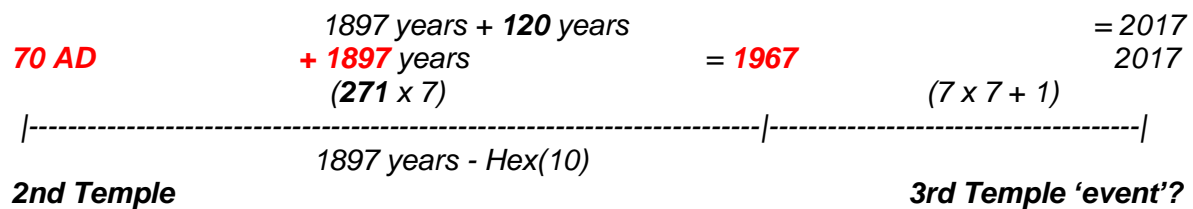

This 49+1 numerical 'Pentecostal' and Jubilee template is clearly used by YHVH as a signature calling-card. It is seen in Creation, the *Moed Pentecost Feast*, the *Gentile Age*, etc. What is most significant about this timeline from 1948, as it is related to the destruction of the 2nd Temple is that perhaps it is related to the construction of the 3rd Temple in this following mathematical equation for consideration. If one takes the number of years from 70 AD when the 2nd Temple was destroyed and one extends it to 1967, the year the *Temple Mount* was recaptured by the Jews for the first time since 70 AD, the difference is 1897 years. Another way of measuring this timeframe would be 271 years x 7. Nothing would seem extraordinary if it were not for those that see intuitively the meaning of the numbers.

First of all, is it coincidence that the 1st *Zionist Jewish Congress* since 70 AD occurred in 1897? This occurred in Basel, Switzerland for the sole purpose of designing the 'roadmap' to establishing the homeland of the Jews in Israel. Furthermore if one adds 120 years to the 1897 years, that year count coincides with 1967, the liberation of the *Temple Mount*. This timeline equals 2017, the 50th or *Jubilee Year* anniversary. Why this is possibly Biblically significant is that the 50th year Jubilee is a coefficient or fractal of the 120. This is seen in Genesis when YHVH give the mathematical variable of 120 years that many are suggesting are the totality of Jubilee cycles until the coming of Messiah when Daniel's last *Week of Years* are completed. More astonishing is the supposition that many have attributed that time around the time of the *Flood of Noah* to be 7 cycles of 49 years corresponding to the year 2017. This would roughly amount to 120 cycles of 49 years or about 5880 years.

The Hexagram of Time

Pertaining to the 271 coefficient from 70 AD to 1967, the *Gematria* suggests a factor of a hexagram. The number 271 would also seem uninteresting or unapparent prophetically except that it is very telling in terms of *Gematria*. According to the research of the website *The Bible Wheel*, the prime number 271 is the '10th Centered Hexagon number or Hex(10). This phenomenon is found in the heart of the 10th Star Number, the prime number of 541. This latter number is also seen in the value of Israel, The Commandments of the Stone Tablets, etc. Like the elements of the *Holographic Generating Set* (A = 27, B = 37, C = 73), the number 271 is both geometric Hex(10) and integrated with the *repunits* since it is the largest prime factor in $R_5 = 41 \times 271$. It is a prime number and its related number is 1776.'

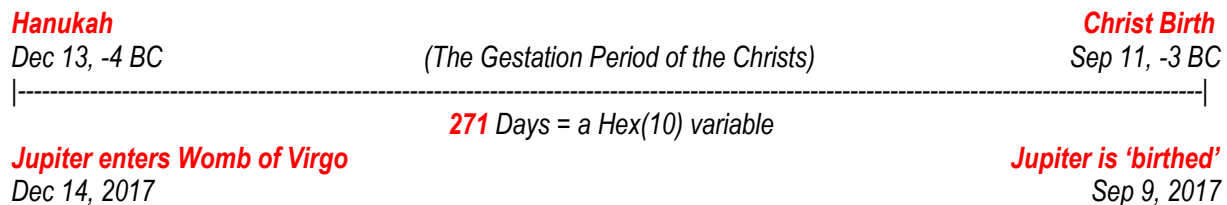

It is if as though there had to be 7 'Stars of David' or *Remphan* to others, from when the Temple was destroyed to when the countdown to its foundation recaptured and perhaps to when its construction is to begin. And obviously the 1776 numerical coefficient speaks volumes of the Luciferian truncated pyramid and the coming of the *Capstone*, etc. As it has been already attributed to a possible association of the *Parable of the Fig Tree*, the birthing of Israel will also coincide with the astronomical 'birthing' of a 'King' in 2017. Thus one can safely assume that the prophetic restitution of YHVH's Earthly people Israel are subject to mathematical factors of various sacred numbers that are to coincide, occur and be realized according to its preordained order and numbering. The following is the Hex(10) timeline from 70 AD to 1967.

Technically in the Jewish counting of time, this birthing of a 'King' based on the astronomical typology of Jupiter in the Revelation 12 *Great Virgo Sign* is to start-off the year of 5778. It has also been talked about in the prophecy circles how 5777 is numerically pointing to the end of the *Age of Grace*, whereby the 777 is a triple emphases to perfection and an end of a predisposed 'time' as the 5 represents 'grace'. Thus the number 8 signifies a 'new beginning' as was the 8 souls that started the new world or 'Order' when they came off the Ark after the *Flood of Noah*.

Can it be that the timelines that are apparently converging in 2018 are suggesting an 'event' that will lead-up to the eventual edification of the 3rd Temple? Will a 'King' also appear to coincide with this Temple being raised and from where he will sit from? There is only one place in the Temple that was designed for anybody to sit in, the *Ark of the Covenant*. Nowhere else was there any provision to have the Priestly Servants 'sit' in either the outer court of the Tabernacle and Temples or the *Holies*. The Temple was not designed for 'sitting' but for service which meant that there was no time for the rotating Priests in service to 'rest' or 'sit'. The *Ark of the Covenant* was the only piece of furniture that represented the *Throne Chair* of the Creator in Heaven.

It was from where the King of Righteousness, the Christ sat in glory and at rest. None else was to sit in it. Who will this coming 'King' be? To the Christians, it will be the AntiChrist. To the Jews, it will be their Messiah whom they will expect because for one thing, he will allow for the 3rd Temple to be built and for the sacrifices to commence. Many are convinced that these provisions will be part of the 'Confirming of the Covenant' with the 'Many'. What this study also finds amazing is the correlation with this Hex(10) variable of 271 days to year association. This variable speaks of a 'gestation' period of a human that is about to be delivered to full term. For example, if Jesus was born on September 11, -3 BC, and He was conceived on Hanukah of the previous year on about December 13, -4 BC, guess what the day count would be?

It would be 271 days and thus also a Hex(10) factor that also occurs or repeats from the destruction of the 2nd Temple to the recapturing of it in 1967 by a multiplying factor of 7. The timeline above also seeks to provide an additional inference to the 'gestation' of the 'King' that is about to be 'birthed' as in Jupiter in the Great Virgo Sign of September 2017. Ultimately, this 3rd Temple will be the one that will be defiled by the *Abomination of Desolation* that Jesus warned Israel about concerning the fulfillment of the prophecy given to Daniel. This 'Abomination' will consist of an idol being setup and eventually Lucifer by way of the possessed AntiChrist will sit literally and physically on the Ark of the Covenant that will be placed in the *Holy of Holies* in the 3rd Temple in Jerusalem.

Realize that this means that the original *Ark of the Covenant* will be unveiled according to its timing as it will be mutually inclusive of the 3rd Temple's need to be constructed. The question is, will such a place and time be subject to any mathematical correspondences, a *Golden Section* of time and/or measurement even? Most likely yes. Whatever the outcome, it is very prophetic to be alive at the threshold of the 70th year anniversary of Israel's birth as it is the center-piece of YHVH's prophetic clock concerning the 'time' Earth has regarding the plan of salvation as found in its true Messiah, Jesus Christ. It is after all Jesus of which prophecy was, is and will be patterned after and fulfilled. It will be from that conclusion of prophecy that will cease as 'time' will cease itself as all things are consummated in Jesus and for Jesus.
