Sydenham Parish Council

Minutes of Parish Council Meeting 6th August 2015

Present:

Alison Isherwood Rachel Blake Janet Potts Mike May David Wilkins Heather Mullins

The meeting was pleased to welcome District Councillors Lynn Lloyd and Ian White

Co-option	David Wilkins was formally co-opted and welcomed to the parish council, and	
	the Acceptance of Office form was signed.	
Members' declaration of interests (for items	None	
on the agenda)		
Approval of minutes	The minutes of the previous meeting were approved and signed.	
Neighbourhood Planning briefing	Mike May and Janet Potts attended the ORCC Community Planning Workshop, which was a very informative event describing the difference between	
	Community Led Plans and Neighbourhood Plans.	
	A neighbourhood plan sets out proposals for the future development of a	
	neighbourhood and would enable the village to identify preferred sites for development. If adopted, the neighbourhood plan forms part of the statutory	
	development plan for the area in question, and local authority and planning inspectors have to take the plan into account when making planning decisions.	
	This gives neighbourhood plans more weight than other types such as parish or	
	community plans. A neighbourhood plan allows more involvement in how CIL funds resulting from development are allocated. The CIL funds can only be	
	spent on infrastructure items, and a higher percentage of funds are allocated to villages with a neighbourhood plan.	
	A type of Community Led Plan has already been carried out in Sydenham, which	
	lead to the formation of Sydenham Voice. In 2011 and again in 2013 a survey was undertaken asking which issues the villagers felt were important. A	
	subsequent survey could be undertaken to see which subjects of importance remain on the agenda, and a more formal document produced.	
	A neighbourhood plan is expensive to undertake (an average cost of £20,000 for	
	smaller villages) but grants are available towards this. There would be a considerable amount of work involved, undertaken by a group of volunteers, and	
	expert advice and resources could be brought in as required. A neighbourhood	
	plan involves several stages of consultation and is inspected in the same way as the District Local Plan.	
	Lynn Lloyd has arranged for a senior planning officer from SODC to speak to the parish council about Neighbourhood Planning and the options available. This is	
	scheduled for the September meeting.	
Speeding on the B4445	As yet there is no process in place for a parish council to pay for infrastructure under approval from the Highways Department, but AI continues to liaise with	
D4443	Keith Stenning at OCC regarding a pinch point on the B4445.	AI

Sydenham Grove carried out on the site, and a monthly maintenance agreement is in place with a contractor. Demolition has been delayed to avoid unnecessary disturbance for the existing residents. Playing field The demonstration model has been tested and approved and the quantity of scramble nets required has been discussed. The nets are in production, ground clearance starts on Monday 10 thad it its hoped that the structure will be complete by the end of the week. Spare bark has been requested to top up the levels around other equipment. The grant has been received from SODC. Gate security and access were discussed - options to be priced for consideration include a collapsible lockable bollard and alternative gates. Rospa to be consulted about gate requirements for playing fields. Speeding sign Entries to be judged at the September meeting. A query was raised about the cleanliness of the 30mph signs throughout the village - it was suggested that these could be added to the next village clean up, as they just need a wipe over. Road defects Drainage quillies have been reported online - one remains blocked and HM to chase again. The vegetation at the Emmington junction has been cut back as requested. SEE electricity Two wayleaves for the undergrounding project remain in negotiation. MM to meet with SEE next week with alternative solutions for consideration. MI Broadband The power supply to the cabinet is currently being laid. although as yet there is no date from BT for the connection to go live.
