

## Small World Assessment/Ages and Stages Questionnaire

### Parental/Guardian Consent Form

To ensure all of our children are being taken care of on an individual level, Small World tracks the developmental progress of all children in our care. Using Small World Assessments and Ages and Stages Questionnaires, these assessments will let our teachers and parents know where a child is developmentally and academically. Small World Assessments are unique to the classroom your child is in. Each teacher designs their own assessment based on the curriculum for their age group. The Ages and Stages Questionnaire is a developmental screening our center uses to aid us in our assessment. This is a great tool used to distinguish developmental areas a child may excel in and areas that may need a little extra support. Parents are able to do this screening at home as well as obtain a copy of their child's assessment from their teacher.

I agree to allow my child \_\_\_\_\_, to participate in Small World assessments as well as the Ages and Stages Questionnaire (ASQ) developmental screening instruments to be conducted by your child's teacher.

I understand the purpose of this assessment/ screening is to assist the center staff in planning for each unique individual. I understand that all information gathered on my child will be held in the strictest of confidence and will only be seen by Small World Staff and you, the parent. I also understand I can request an opportunity to review a copy of the measurement.

There are no identifiable risks associated with this agreement. However, I understand that I may decline consent at any time. Finally, I understand I can contact Kathy, Shannon, or Tina with any questions or concerns about this consent.

Parents/Guardians please check one and sign:

\_\_\_\_\_ I agree to allow my child to participate in the Small World Assessments/ ASQ measurements

\_\_\_\_\_ I do not agree to allow my child to participate in the Small World Assessments/ ASQ measurements.

Print your name and relationship to child \_\_\_\_\_
