Etown	2015	262	240	22	Low
Manor	2015	238	235	3	Low
Myerstown	2015	250	247	3	Low

Average		228.3333	213.33	15	
----------------	--	-----------------	---------------	-----------	--

After having both of these hybrids for a few years now we have collected some consistent data. As you can see from the chart in high stress situations DKC64-87 has been very consistent. The ability to yield high in good situations is very important but it is more important to be consistent in all years. DKC64-87 has also shown to have great stalk strength when stressed which can be important when the plant cannibalizes itself when stressed late in the season.
