- ✓ Powder chlorine-active detergent
- ✓ Degreasing, descaling and sanitizing detergent
- ✓ For shot cycle dishwashers

Dishware/utensils cleaning

Glassware cleaning

Dishwashing machine

### WHAT IT IS FOR

Alkaline dishwasher powder, suitable for washing in any kind of dishwasher and bar glass/cup washer. The product unleashes its strong degreasing power on dishes and glassware, at the same time producing an excellent descaling and sanitizing action.

### RECOMMENDED DOSAGE

3 to 5g per litre, depending on the hardness of the water.

### USE

Place one scoop inside dishwasher and select the washing programme. Close the container tightly after use.

One scoop for every 5-6 cycles.

### AVAILABLE PACKING

10kg Bucket
