Pacific Aqua Technologies, Inc. Welcomes New Management Member Mr. Jess Salvador

Santa Fe Springs, California – Pacific Aqua Technologies, Inc. (PAT), a world leader and an international designer and builder of advanced water treatment systems welcomes a new key member to our management team Mr. Jess Salvador.

Mr. Jess Salvador joins PAT as Senior Vice President. He has held senior management roles in the water treatment and membrane application industry for more than 20 years. He has taken many roles in the project development, engineering, construction, installation supervision, and commissioning of over 400MGD installed capacity membrane desalination facilities worldwide.

“I am extremely excited to have Jess join our company, his extensive experience, proven leadership abilities, exceptional international business experience and a track record of results will add energy and drive to advance our corporate growth agenda,” said Mr. Hany Said, Chief Executive Officer. “I have worked extensively with Jess in the past, have the utmost respect for his experience and accomplishments, and we have developed close trusted relationship with each other that will enable us to continue to grow and expand in the market place.”

PAT is committed to providing our customers with the best total solutions to meet the ever growing demand for high quality water. PAT is proud to introduce our newest member of our management team; his addition allows PAT to focus on our customers’ needs while continuing to grow in the international market place.

About Pacific Aqua Technologies

Based in Santa Fe Springs, California with offices in Florida and China, PAT derives its capabilities from over 100 years of combined experience in design, manufacturing and installation of large capacity desalination plants.
