Mrs. Rebecca Stone
Superintendent

Mrs. Heather Euson
District Clerk

August 31, 2021

Dear Marathon Parents and Guardians,

We were advised on Tuesday, August 31, 2021, that a person who participated in Marathon athletics has tested positive for the COVID-19 virus. The Cortland County Health Department will be initiating an investigation and will start the contact tracing process. Today, Marathon staff are reaching out to families of students that may have been in contact with the individual who has tested positive for COVID 19. Health Department personnel will officially reach out to anyone who has had close contact with the individual who tested positive and provide quarantine guidelines. If an unknown number calls your phone in the next few days, please answer as this may be a call from a NY State contact tracer. All staff members who were directly exposed will either be quarantined for the next 10 days (and can return to work after those 10 days if they have no symptoms) or will return to work once vaccination status has been confirmed. All students who were directly exposed will be quarantined with those same parameters.

The person who tested positive, and any other students/faculty/staff who were exposed and have not been vaccinated, will not return to school until the Cortland County Health Department provides clearance for them to do so. Students and staff who are vaccinated can return to school as long as they are symptom free. Vaccinated persons will be contacted by public health to confirm vaccination status and be given the most up to date CDC recommendations for continued well being. We hope you understand that we cannot provide any additional information about the person who tested positive due to confidentiality concerns. We will continue to deep clean and sanitize our school buildings and school buses on a daily basis.

It is important that students and staff who feel sick stay home. If you or a family member start to exhibit symptoms of COVID-19 (defined by CDC to include fever, cough, shortness of breath or difficulty breathing, chills, muscle pain or body aches, headache, sore throat, new loss of taste or smell, fatigue, diarrhea, nausea or vomiting, congestion or running nose), please reach out to your physician and inform the appropriate school nurse. If you do not have a physician, you can call Guthrie Cortland Medical Central at (607) 299-7676, Upstate Medical University at (315) 464-3979, Cayuga's Call Center at (607) 319-5708 or Binghamton University's Drive-Thru Site at 1-888-364-3064. If you would like further information on COVID-19, please go to this Cortland County website, <https://www.cortland-co.org/432/Health-Department>.

We thank you for your understanding and patience. We will continue to support our students, families, faculty and staff to the best of our ability. Let's all continue to work together to stay healthy, so our schools can stay open.

Sincerely,

Rebecca Stone
Marathon CSD Superintendent
