Advanced Open Water

To what depths do you want to take your adventure? No matter what your goal is, the PADI Advanced Open Water Diver course gives you the confidence, skills and experience for a whole new level of underwater exploration; all under the guidance of a PADI Pro.

As you step beyond the Open Water Diver level you'll dive five times over two or more days and have the opportunity to try (at your instructor's discretion), underwater navigation, night diving, deep diving, digital underwater photography, wreck diving and much more. Plus, the Advanced Open Water Diver course takes you one step closer to Master Scuba Diver™ – the ultimate recreational diving rating.

Rescue Diver

“Challenging and rewarding” best describes the PADI Rescue Diver course. This course expands your knowledge and experience level: Rescue Divers learn to look beyond their buddy and consider the safety and well being of fellow divers. Although this course is challenging, it is a rewarding way to build your confidence. Rescue Diver training prepares you to prevent problems and, if necessary, manage dive emergencies. Many divers say this is the most valuable course they have ever taken.

Emergency First Response®

Taken before your Rescue Diver course, you'll learn to react to medical emergencies with confidence in the Emergency First Response Primary Care (CPR), Secondary Care (first aid) and/or Care for Children courses.

Visit emergencyfirstresponse.com to find an instructor near you.

PADI Specialties

Whether you've just received your Open Water Diver certification or have hundreds of logged dives, the PADI Specialty Diver program, which culminates in the prestigious Master Scuba Diver™ rating, takes your diving to a whole new level. Five specialty ratings will put you well on your way to becoming a PADI Master Scuba Diver. Here's just a snapshot of the numerous PADI Specialty Certifications.

Enriched Air Diver – Enrich your dive and extend your bottom time. (Enriched Air Diver Online is also available at padi.com/elearning)

Deep Diver – Reaching new levels opens a world of life forms that don't exist at shallower depths.

Digital Underwater Photographer – You're not just taking pictures – you're taking instant snapshots of all your exciting adventures to take home with you. (Digital Underwater Photographer Online is also available at padi.com/elearning.)

Wreck Diver – The water gives up its secrets as you explore where the past and the present meet for a moment.

AWARE Coral Reef Conservation – Discover the world's coral reef ecosystems, learn about threats to these environments and what you can do to protect them.

Night Diver – Darkness falls and the most amazing creatures venture out. Why not be one of them?

Master Scuba Diver™

Want to join the best of the best in recreational diving? Explore the underwater world like never before? Live the ultimate dive lifestyle? If you do, then visit your local PADI Dive Center or Resort to work towards your Master Scuba Diver rating.

Master Scuba Diver is PADI's highest recreational diver rating. This is where the best of the best come to play because the dive possibilities are endless. To become a Master Scuba Diver you must log 50 dives and complete the following PADI courses:

- Open Water Diver
- Advanced Open Water Diver
- Rescue Diver
- Five Specialty Diver courses

THE ULTIMATE

Prestige isn't easy to come by, but it is certainly well worth it. As a Master Scuba Diver, you'll have a whole new level of confidence whether you're diving local wrecks, quarries, reefs or exploring exciting dive environments around the world.

Divemaster

Your adventure as a professional level diver begins with the PADI Divemaster program. Working closely with a PADI Instructor, you expand your dive knowledge and hone your skills to professional quality. PADI Divemaster training develops your leadership abilities by training you to supervise dive activities and assist instructors with student divers.

Take charge of your adventure and become a PADI Divemaster.
