Tanker Unloading

Waste Transfer

Utility Plants

Double Diaphragm™ Pump

As a MWI Pump Partner, WMS is able to supply some of the best equipment in the business, including the Double Diaphragm Pump. This pump is incredibly versatile, capable of working in numerous applications. The stainless steel material of construction and ruggedness of the pump offer the greatest value and service life in the industry.

Features

- Simple, yet rugged, trouble free design
- Superior corrosion resistance due to materials of construction of wetted parts
- Boston Gearbox with 1.25 Service Factor and high grade synthetic oil provides long service life
- Five easy cleanout ports allow for effortless cleaning after use
- Stainless flapper valves allow for handling of 3.75" solids, slurries, and other hard to handle fluids
- Flex coupling allows for maintenance of engine and gearbox without requiring full disassembly
