The Kufferath Obi

- Presented by Leslee Kufferath in honor of her father, Dai Shihan Sig Kufferath.

The Obi is a symbol of the martial path you have chosen to walk. As you progress through various kyu ranks, the color of the belt changes because your achievements are rewarded with a new belt of a new color. Once you obtain your black belt, it continues to change, but in a much more subtle way and refined way. The change is very gradual, and comes about not because you have been presented a new belt, but it changes on its own in response to wear and tear you receive from continued training, slowly wearing away to reveal more and more of the white core of the black belt. This change does not reflect achievements – it reflects insights – insights that can only be gained through extensive training, and can never be truly comprehended by those who are uninitiated. Thus, we see that at the core of the black belt is a white belt again.

This belt that you are being presented with, are given to those who have given far more than their time – they have given the essence of their beings to their art, and, as natural consequences, find themselves having completed the circle, having transcended the pure black belt that they received as a shodan. In honor of my father, Professor Sig Kufferath, this belt is given to you. The “Kufferath Obi” are given with the greatest love and respect for those receiving them. You are truly the best of the best.

Aloha

Leslee Kufferath
