To Whom It May Concern,

We are pleased to write this letter of recommendation for Mike Baird of Baird Builders. They have successfully completed the Tenant Improvements for our smoothie and juice bar, Booster Juice to our complete satisfaction.

Our TI build-out for our smoothie and juice bar was based on franchise requirements with many interesting challenges with the design as well as city and county requirements. Baird Builders provided a competitive and professional response to our project and were flexible and easy to work with during our planning process.

During construction, our project was completed on schedule even with unforeseen issues with the city and health department inspections. Baird Builders were flexible and accommodating to resolve issues as they arose. The result of the TI build-out was as expected and presents a professional and pleasing smoothie and juice business.

I would recommend Baird Builders to others considering commercial building project and would use Baird Builders again in the future.

Sincerely,

Karen and Peter Lincowski
