Dear President,

from the 9th to the 14th of december 2013 i came as visitor in Serbia, after i took preliminary contact with the dr. Katarina Sekularac, from your own cultural association in Belgrade. Also by her own, the dr. Katarina Sekularac took care about the trip's whole organization for me with availability and abnegation.

It was the very first time for me being in Serbia: i say thank for the opportunity this visit gave to me for i could touch by hand true masterpieces held in our own country.

I'm interested from longtime, as iconographer and as member of the sacred fine arts commission in my diocese in Italy – Bologna, to develop collaborative projects with Serbia.

Now we face in a short time two optimal opportunities:

- Visit at Belgrade city downtown and at historical Monasteries built in golden age of XIII century, by groups will come from Italy.
- The exhibition of contemporary icons from Serbia, that's will be in the estimate period, in between august-september 2014 in Sardinia region – Italy.

I put my trust into the work and the competence of the dr. Katarina Secularac asking her to develop these bilateral projects.

I ask and recommend that's Katarina can count on your best support, care and trust. She showed me to be completely match up about the projects' organization, forwarding and develop.

Faithfully yours
don Gianluca
