

Client Centered Prescriptions: You Say It, But Are You Doing It?

Length: 1 Hour

Description:

There are many elements that come into play when prescribing a wheelchair, and it can be difficult to make sure you are truly staying client-centered. This presentation will review the process of a wheelchair prescription while managing the client, therapist, dealer and funding sources interests. We will review therapeutic models and professional standards, which highlight the therapist's goals and responsibility as well as strategies to manage all priorities and opinions.
