

## Canine Genetic Health Certificate<sup>©</sup>

**Call Name:** Maggie  
**Registered Name:** HERD ABOUT MARLOW'S MAGGIE  
**Breed:** Toy Australian Shepherd  
**Sex:** Female  
**DOB:** Aug. 2010

**Laboratory #:** 1530  
**Registration #:** ASDM-KY-1000070  
**Microchip #:** -  
**Certificate Date:** April 15, 2014

*This canine's DNA showed the following genotype(s):*

Disease	Gene	Genotype	Interpretation
Collie eye anomaly	<i>NHEJ1</i>	WT/WT	Normal
Progressive retinal atrophy, Progressive rod-cone degeneration	<i>PRCD</i>	WT/WT	Normal

WT, wild type (normal); M, mutant

Paw Print Genetics™ performed the tests listed on this dog. See the Laboratory Report for interpretation and recommendations based on these findings. The genes/diseases reported here were selected by the client. Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics. This laboratory has established and verified the tests' accuracy and precision. Genetic counseling is available at Paw Print Genetics.
