## INSTRUCTIONS FOR USING THE ONLINE VIRTUAL MEETING TOOL ZOOM

On your smartphone, you can download the Zoom app too, or you can just place a phone call to the "One tap mobile" number shown above.

If you're asked to give permission for Zoom to use your video and/or audio, say yes.

There are many video tutorials to help you understand how to use Zoom. Find them on YouTube or go to Zoom.us.

Participant controls in Zoom are typically in the lower portion of the Zoom screen. Using the icons there, you can:

- 1) Mute/Unmute your microphone (a red line means off) – please keep your microphone muted when you aren't speaking to the group to minimize background noise
- 2) Turn on/off camera ("Start/Stop Video") – please keep your video on during offerings so we can connect more personally
- 3) Leave the meeting

Typically in the upper right corner, you will see a choice to toggle between "speaker" and "gallery" view. "Speaker view" shows the active speaker. "Gallery view" tiles all of the meeting participants. Try both and see which you prefer.
