

Hunter Education Class 2015 For U.S. Veterans

The Hunter Education Instructor Association of Southern California, Quail & Upland Wildlife Federation, California Rifle & Pistol Association, the NRA and many more would like to salute every US Veteran for the service you've given to our country. Giving back to you, we would like to offer Hunter Education Class for US Veterans for FREE.

In a continued effort to reduce firearm accidents, the State of California requires all first time resident hunters, regardless of age, to complete hunter education training or pass a comprehensive equivalency test before purchasing a hunting license.
