

Return to Work Program Questionnaire

Having some information prior to your return to work meeting will allow the union representative to better support your return to work. The following questions are meant to guide and facilitate conversation with your union representative.

1. **Do you have any questions about the required medical documentation?**
Before you can return to work updated Medical information will be requested in the form of an Attending Physicians Report (non occupational injury / illness) or a Functional Abilities Form. This documentation needs to be completed by your health care provider and forwarded to the Health and Abilities Consultant.
2. **Is there any information that you would like to share with your union representative?** Remember that anything discussed will be held in strict confidence.
3. **What is your biggest worry about coming back to work?**
4. **What would make your transition back to work easier?**
5. **Are there parts of your job that your doctor wants you to avoid?**
6. **Do you agree with your doctors recommendation?**
7. **Is there information you would like shared with your co-workers so that they can better understand the impact your accommodation may have on them?**
