

Are you bringing a Go Pro, cellphone, or some other recording device to capture your experiences on this adventure and want to share them? If you want your footage to be featured in the regatta's videos then please share them with us. Just create a 15 to 20 second video of your experiences whether it is your time racing, your first thoughts when arriving in Havana, the social events in Havana, or any occasion that is related to the regatta, and it just might be included in the final video of this year's Pensacola-Havana Regatta closing video.

All videos must be sent to littleredboatstudio@gmail.com with your name, date in which the event was recorded, and a brief description of what happens in your video. Videos do not have to be of the greatest quality, but must be good enough to be edited and processed. Videos greater than 15 to 20 seconds in length may still be considered depending on subject, but remember shorter is better. Please insure your videos are appropriate and in good taste or they will not be included in the final video. All videos must be submitted by noon the day following the close of the final regatta sponsored event.
