

LabSpace Parties

Parties are scheduled based on staff, equipment and room availability. Please call (573) 645-0800 with questions, or email LabSpaceRobotics@gmail.com.

Legos and Marble Mazes - 90 minutes \$90 2 hours- \$100

(up to 15 children)

We'll have lots of Legos and marble mazes for everyone to build with. This is a good choice for multi-age parties. Usually, everyone builds for about an hour and then the remaining 30 minutes is for cake and presents. LabSpace will have an area set up with tables with cloths and some birthday decorations, you'll bring whatever food you'd like to serve. LabSpace will supply 1 helper to facilitate the party.

SumoBot Challenge- 2 hours \$150

(up to 16 children)

Party goers will work together in teams for 2-3 to build a robot and then remote control them to try to push each other's robots out of the ring. LabSpace will provide at least 2 people to help everyone have a fun time. You'll build and battle for 90 minutes and then have 30 minutes for cake and presents. LabSpace will have an area set up with tables with cloths and some birthday decorations, you'll bring whatever food you'd like to serve.

Maker Camp Party- 90 minutes \$120

(up to 10 children)

LabSpace will provide either several small maker projects (things like marshmallow shooters, fidget spinners, straw airplanes) or 1 large project (pneumatic crane, propeller car, Icee Lid Robot). LabSpace will provide two teacher/helpers and all supplies for the projects. We'll build for about 60 minutes and then have 30 minutes for cake and presents. LabSpace will have an area set up with tables with cloths and some birthday decorations, you'll bring whatever food you'd like to serve.
