

## “A Place for Creative Beginnings”

### Kinderprep's Preschool

Kinderprep's Preschool Program follows a thematic academic curriculum. Teachers plan hands on lessons which engage all learning styles. Our philosophy takes into account that children of this age develop differently. We continuously challenge each individual student at their level of interest and ability. Our small class sizes allow teachers to give plenty of one on one attention. We want our students to grow socially, emotionally, and academically throughout their time in our preschool program. We are confident that they will be more independent and grow into eager learners who are prepared and ready for Kindergarten.

Our preschool program is full-day, running 7:00am.-6:00pm for children 2 ½ - 5. The academic part of the day is between 9-3 and we do offer an extended day to 6:30pm for an additional fee. We follow a school calendar which begins in September and ends in June. An 8 week summer camp is available to extend the program through the summer months. Children can be registered for 2, 3 and 5 days. It is recommended that 4 yr. olds come for a minimum of 3 days so that they are fully prepared for Kindergarten. Registration is ongoing if we have openings, but typically we enroll in January for the following school year. Most years there is waiting list for preschool and we may only have 1 or 2 spaces open up for the following year in each age group.

We would love to meet you and your preschooler. Please do not hesitate to call or email the school for pricing, questions or to schedule a tour!!!
